

Perpetual Private

PERPETUAL SELECT INTERNATIONAL SHARE FUND

February 2024

FUND FACTS

Investment objective: Long-term capital growth through investment in a diversified portfolio of international shares.

Suggested length of investment: Five years or longer

INVESTMENT APPROACH

The Fund combines specialist investment managers with different investment styles and philosophies. This can help reduce the volatility of the Fund by avoiding over exposure to a particular specialist investment manager. The currency exposure of international assets is monitored and hedging strategies may be implemented (using derivatives) with the aim of reducing the impact of adverse currency movements.

BENEFITS

Offers investors access to returns from companies overseas. Investing internationally allows investors the ability to diversify their portfolio, reducing overall volatility.

RISKS

All investments carry risk and different strategies may carry different levels of risk. The relevant product disclosure statement or offer document for a fund should be considered before deciding whether to acquire or hold units in that fund. Your financial adviser can assist you in determining whether a fund is suited to your financial needs.
