PSL and PIML are wholly owned subsidiaries of Perpetual Limited (ABN 86 000 431 827) and part of the Perpetual Group, which has been in operation for over 130 years.

The following information, as and when required by superannuation law, can be found on our website at www.perpetual.com.au/select-super or www.perpetual.com.au/select-pension:

SUPER PLAN

The Super Plan allows you to save for your retirement and protect your wealth along the way by:

- accepting all types of eligible superannuation contributions made by you or on your behalf
- offering death, disability and salary continuance insurance cover to eligible members.

PENSION PLAN

The Pension Plan pays you a regular income from your accumulated superannuation when you retire (or meet another condition of release under superannuation law).

2. HOW SUPER WORKS

Superannuation (super) is an effective way of saving for your retirement which is, in part, compulsory. Super is generally a long-term investment, which has the following characteristics:

- tax incentives are provided by the Government
- there are different types of contributions that can be made by you or on your behalf (eg personal contributions, employer contributions, spouse contributions and government co-contributions)
- super guarantee contributions generally have to be made for you by your employer if you are earning more than \$450 per month and most people have the right to choose into which superannuation entity their employer should direct these compulsory contributions
- there are work and/or age-based conditions for making contributions to super, as well as dollar limits, depending on the various types of contributions
- there are restrictions on when you can withdraw your super – generally once you reach age 65 or retire after reaching your preservation age (between ages 55 and 60, depending on your date of birth), although there are some other special circumstances (eg 'transition to retirement' pensions) where you can access it earlier
- you can generally withdraw your super as a lump sum and/or pension income (subject to a minimum annual pension amount)
- in the event of your death, your benefit will generally be paid to one or more of your dependants or to your legal personal representative.

FURTHER INFORMATION

Further information about how super and pensions work, including eligibility to invest and accessing your benefit, are contained in separate documents titled 'Your Super Plan account' and 'Your Pension Plan account', which form part of this PDS.

4. RISKS OF SUPER

The amount of your future super savings (including contributions and returns) may not be enough to provide adequately for your retirement.

All investments carry risk. Each investment option may not necessarily be exposed to each of the risks and different investment options may carry different levels of risk, depending on their underlying assets. Assets with the highest long-term returns may also carry the highest level of short-term risk due to their generally larger fluctuations in returns.

The value of your investment may fall for a number of reasons, including the risks set out in the following table on page 4, which means that you may receive back less than your original investment when you withdraw. Before making an investment decision, it's important to understand the risks that can affect the value of your investment. While it's not possible to identify every risk relevant to investing in the Fund, we have detailed in the following table significant risks that may affect your investment.

The appropriate level of risk for each person will vary depending on a range of factors including age, investment timeframe, other investments and risk tolerance. Your financial adviser can assist you in determining which investment options are suited to your financial needs and the level of diversification you need.

Neither we nor any company in the Perpetual Group guarantee that you will earn any return on your investment or that your investment will gain in value or retain its value. The level of returns will vary, and future returns may differ from past returns. Investment in the Super Plan and Pension Plan is subject to investment risk, including possible delays in repayment and loss of income and capital invested.

TYPE OF RISK	DESCRIPTION OF RISK
Market and economic risk	Certain events may have a negative effect on the price of all types of investments within a particular market. These events may include changes in economic, social, technological or political conditions, as well as market sentiment, the causes of which may include changes in governments or government policies, political unrest, wars, terrorism, pandemics and natural, nuclear and environmental disasters. The duration and potential impacts of such events can be highly unpredictable, which may give rise to increased and/or prolonged market volatility.
Asset risk	A particular asset that a fund invests in may fall in value, which can result in a reduction in the value of your investment.
Interest rate risk	Changes in interest rates may have a negative impact, either directly or indirectly, on investment returns.
Currency risk	For investments in international assets, which have currency exposure, there is potential for adverse movements in exchange rates to reduce their Australian dollar value. For example, if the Australian dollar rises, the value of international investments expressed in Australian dollars can fall.
Credit risk	The issuer or party to a transaction may not repay the principal, make interest payments or fulfil other financial obligations in full and/or on time. The market value of an investment can also fall significantly when the perceived risk of a note or bond increases or its credit rating declines.
Counterparty risk	A loss may occur if the other party to a contract, including derivatives contracts, lending arrangements (cash or stocks) or currency hedging agreement, defaults on their obligations under the contract.
Legal and regulatory risk	Changes in legislation and differences between rules (including interpretation of the law) in domestic and foreign markets, including those dealing with superannuation, taxation, accounting and investments, may adversely impact your investment.
Investment strategy risks	A fund's investment strategy may involve specific risks. These include derivatives risk, liquidity risk, gearing risk, short-position risk, prime broker risk and portfolio concentration risk – see the separate incorporated documents noted under 'Further information' for details.
Other risks	Investing in a super fund that holds units in managed investment schemes may provide you with a different tax outcome than investing in a super fund which uses a different investment vehicle or holds investments directly. This is because of the application of specific tax laws to the managed investment schemes and the impact of investments into, and withdrawals from, the managed investment schemes by other investors.

FURTHER INFORMATION

Further information about the risks of investing and how these risks are managed is contained in separate documents titled 'Your Super Plan account' and 'Your Pension Plan account', which form part of this PDS.

You should read the important information about the risks of investing before making a decision. Go to www.perpetual.com.au/select-super-updates or www.perpetual.com.au/select-pension-updates.

The material relating to the risks of investing may change between the time when you read this PDS and the day when you acquire the product.

When choosing your investment option(s), you should consider the likely investment return, the risk and your investment timeframe. We recommend you consult a financial adviser for assistance in determining the most appropriate investment option(s) for you.

If you don't make a choice of where to invest, we will not be able to accept your contributions.

The following profile is provided for the Balanced investment option. Similar profiles for all of the investment options are provided in separate documents titled 'Your Super Plan account' and 'Your Pension Plan account', which form part of this PDS.

Real estate ³	0-15%
Australian shares	10-35%
International shares ³	15-50%
Growth alternatives	0-20%

- 1 The risk level represents the Standard Risk Measure (SRM), which is based on industry guidance to allow members to compare investment options that are expected to deliver a similar number of negative annual returns over any 20 year period, as follows.

RISK BAND	RISK LABEL	ESTIMATED NUMBER OF NEGATIVE ANNUAL RETURNS OVER ANY 20 YEAR PERIOD
1	Very low	Less than 0.5
2	Low	0.5 to less than 1
3	Low to medium	1 to less than 2
4	Medium	2 to less than 3
5	Medium to high	3 to less than 4
6	High	4 to less than 6
7	Very high	6 or greater

The SRM is not a complete assessment of all forms of investment risk, for instance it does not detail what the size of the negative return could be or the potential for a positive return to be less than a member may require to meet their objectives. Further, it does not take into account the impact of administration fees and tax on the likelihood of a negative return.

Members should still ensure they are comfortable with the risks and potential losses associated with their chosen investment option/s.

The SRMs for the investment options may change over time for various reasons, including as a result of reviews of the underlying capital market assumptions that are used in their calculation and future changes to asset allocations. Any changes to SRMs at any time will be available at our website.

- 2 Fixed income includes both Australian and international assets. This exposure is gained through underlying investment into Perpetual Select Fixed Income Fund. Currency exposure in the underlying fund is monitored and hedging strategies are employed (using derivatives) with the aim of reducing the impact of adverse currency movements.
- 3 The currency exposure of international assets in the underlying funds is monitored and hedging strategies may be implemented (using derivatives) with the aim of reducing the impact of adverse currency movements.

FURTHER INFORMATION

Further information about how we invest your money, including profiles for all of the investment options available to members, is available in separate documents titled 'Your Super Plan account' and 'Your Pension Plan account', which form part of this PDS.

You should read the important information about how we invest your money before making a decision. Go to www.perpetual.com.au/select-super-updates or www.perpetual.com.au/select-pension-updates.

The material relating to how we invest your money may change between the time when you read this PDS and the day when you acquire the product.

You can switch some or all of your investment in an investment option into another investment option(s) at any time through Online Account Access or by sending us a completed switch form.

We may add, close and/or terminate investment options at any time. We will contact affected members before terminating any investment option to seek your alternative investment instructions and advise what will happen to your investment if you take no action.

We may also add, delete or replace specialist underlying investment managers at our discretion.

ENVIRONMENTAL, SOCIAL AND ETHICAL FACTORS AND LABOUR STANDARDS

Investment managers (including PIML) increasingly have policies in place regarding their methods for considering environmental, social and governance (ESG) factors and labour standards which may influence the purchase, sale or retention of an individual investment.

For Australian and international shares, PIML (as the responsible entity of the underlying funds) will neither invest in nor choose specialist underlying investment managers investing in companies that are manufacturers of cigarettes and other tobacco products. Otherwise:

- PIML considers potential specialist underlying investment managers' ESG policies/practices only to the extent that they may have an effect on their style and investment performance
- PIML will neither choose nor exclude a specialist underlying investment manager solely on their ESG policies/practices, but these will contribute to PIML's overall assessment of the manager's style and capability
- where PIML is the specialist investment manager, PIML will only take ESG factors and labour standards into account to the extent it believes they may impact the current and potential future quality or value of an individual investment (either positively or negatively).

6. FEES AND COSTS

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You or your employer, as applicable, may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** MoneySmart website (www.moneysmart.gov.au) has a superannuation calculator to help you check out different fee options.

FEES AND COSTS SUMMARY

Information in the 'Fees and costs summary' can be used to compare costs between different superannuation products.

Fees and costs can be paid directly from your account or deducted from investment returns.

- 1 If your account balance for a product offered by the superannuation entity is less than \$6,000 at the end of the entity's income year, certain fees and costs charged to you in relation to administration and investment are capped at 3% of the account balance. Any amount charged in excess of that cap must be refunded.
- 2 Investment fees and costs include an estimated amount of 0.12% and 0.13% for performance fees in the Super Plan and Pension Plan respectively. The calculation basis for this amount is set out under 'Additional explanation of fees and costs' in the separate 'Additional information about fees and costs' document.

We may change our fees without your consent. However, we won't increase our administration or investment fees, or introduce new fees, without giving you at least 30-days' written notice. Administration costs, investment costs and transaction costs may vary each year without notice.

Estimated transaction costs, which are used to determine the buy/sell spreads, are reviewed regularly. Consequently, the above buy/sell spreads current as at the date of this PDS may change (increase or decrease) during the life of this PDS. The latest annual transaction costs and current buy/sell spreads at any time (as amended) are publicly available at our website.

7. HOW SUPER IS TAXED

The tax benefits derived from investing in super are particular to your circumstances, so we recommend you see a tax adviser. The following summary information is general only and shouldn't be relied on.

CONTRIBUTIONS/ROLLOVERS

Concessional contributions, including employer contributions and personal contributions for which you claim a tax deduction (conditions apply), are generally subject to tax at 15% within the Fund.

Non-concessional (after-tax) contributions are not taxable within the Fund.

There are limits on the amounts of concessional and non-concessional contributions that can be made each year (see application forms for details). Excess contributions attract additional tax.

Generally, no tax is applied on amounts rolled over into the Fund, unless they have come from an untaxed source and contain a taxable component, in which case we are required to deduct tax of 15% on the taxable component amount.

INVESTMENT EARNINGS

The Fund's investment earnings relating to Super Plan members are generally taxed at a maximum rate of 15%.

Investment earnings, including realised net capital gains, derived within the Pension Plan are not subject to tax.

WITHDRAWALS

Withdrawals from your super may be taxed if you are aged less than 60. Once you turn age 60, generally no tax will apply to withdrawals, including income payments to Pension Plan members.

DEATH BENEFITS

Payment rules and the tax consequences depend on whether the death benefit is paid to a dependant or non-dependant.

Lump sum death benefit payments are tax-free if paid to a dependant.

TAX FILE NUMBER (TFN)

You should provide your TFN when joining the Fund.

Under the Superannuation Industry (Supervision) Act 1993, we are authorised to collect, use and disclose your TFN.

We will disclose your TFN to another superannuation provider, when your benefits are being transferred, unless you request us, in writing, that your TFN not be disclosed to any other superannuation provider.

Declining to quote your TFN is not an offence. However, providing your TFN will have the following advantages:

- we can accept all permitted types of contributions to your account
- other than the tax that may ordinarily apply, you will not pay more tax than you need to – this affects both contributions to your superannuation and benefit payments when you start drawing down your superannuation benefits
- it will make it much easier to find different superannuation accounts in your name so that you receive all your superannuation benefits when you retire.

We will use your TFN and personal details to verify our records with the ATO. We will update or correct your TFN if instructed by the ATO. We will contact you if the ATO has advised of other changes to your personal details.

TFN DECLARATION FORM (PENSION PLAN ONLY)

If you are under age 60 you will need to complete a TFN declaration form and attach it to your application form. This declaration helps us to calculate how much tax to deduct from your pension payments. The amount of tax deducted may be reduced if you are entitled to the tax-free threshold. If you are required to complete a declaration and you don't, we must withhold tax at the highest marginal tax rate plus Medicare levy from any payment made to you.

FURTHER INFORMATION

Further information about tax relating to super and pension products is available in separate documents titled 'Your Super Plan account' and 'Your Pension Plan account', which form part of this PDS.

You should read the important information about tax before making a decision. Go to www.perpetual.com.au/select-super-updates or www.perpetual.com.au/select-pension-updates.

The material relating to tax may change between the time when you read this PDS and the day when you acquire the product.

8. INSURANCE IN YOUR SUPER

Insurance relates to Super Plan members only. It is not available to Pension Plan members.

The following information is a summary only of the standard insurance cover available to eligible Super Plan members.

GENERAL

The Super Plan generally offers members insurance cover for:

- death only or
- total and permanent disablement (TPD) only or
- death and TPD and
- salary continuance.

Subject to eligibility, all members can apply for insurance by completing the 'Insurance cover' section within the 'Super Plan application' form and, if required, the separate 'Insurance application' form available from our website or by contacting us.

You can request to change or cancel your cover at any time by sending us a completed 'Application to reduce or cancel cover' form available from our website or by contacting us or by writing to us at the address listed on the cover of this PDS.

PREMIUMS

There are costs associated with insurance cover. You can calculate your premiums with reference to the premium rates in the separate 'Insurance in your super' document.

Insurance premiums are deducted from your account monthly in arrears by withdrawal of units. You can either nominate the investment option(s) from which you would like the premiums deducted, or have the premiums deducted proportionately across your investment options. If no nomination is made, or the investment option is insufficient to cover the premiums, premiums will be deducted from your investment option with the highest account balance.

It is important that you ensure your investment balance is sufficient to cover your premiums each month or your insurance will lapse. The Trustee has no responsibility for ensuring continuity of your insurance cover and accepts no responsibility if it lapses.

CESSATION OF COVER ON INACTIVE ACCOUNTS

Under superannuation law, insurance cover must be cancelled if your account remains inactive for a continuous period of 16 months unless you elect in writing to keep your cover.

Please refer to the separate 'Insurance in your super' document for further information about this requirement and for details of the other circumstances where your insurance cover will cease.

CLAIMS

You or your representative must notify the Trustee in writing as soon as possible after you become aware of any claim or potential claim.

If you make an insurance claim, we and the insurer will determine whether you are entitled to be paid based on the terms of the policy, the Fund's Trust Deed and the law.

FURTHER INFORMATION

Full details about the insurance cover available to Super Plan members, including insurance premiums and cessation of cover, are contained in a separate document titled 'Insurance in your super', which forms part of this PDS.

You should read the important information about insurance before making a decision. Go to www.perpetual.com.au/select-super-updates.

The material relating to insurance may change between the time when you read this PDS and the day when you acquire the product.

9. HOW TO OPEN AN ACCOUNT

SUPER PLAN

You should complete the 'Super Plan application' form, together with any other appropriate forms for features that you choose, and send to us with your cheque (if applicable - excluding employer contributions) at the address listed on the cover of this PDS.

All relevant member forms are included with this PDS.

PENSION PLAN

You should complete the 'Pension Plan application' form, together with any other appropriate forms for features that you choose, and send to us at the address listed on the cover of this PDS.

All relevant forms are contained in the separate document titled 'Your Pension Plan account', which is available at our website or by contacting us.

YOUR COOLING-OFF RIGHTS

As a member in the Fund, you have up to 14 days from the earlier of the time when you receive confirmation of the issue of your interest in the Fund or the fifth business day after the issue of your interest in the Fund where you can have your investment repaid ('cooling-off period').

The amount repaid will be adjusted for any transaction costs and any increase or decrease in the value of your investment.

Your right to be repaid during the cooling-off period does not apply if:

- you are switching between investment options
- you exercise any of your rights as a member of the Fund.

Any amounts that are 'preserved' or 'restricted non-preserved' (including pensions taken out under the 'transition to retirement' provisions) can't be refunded to you if you exercise your cooling-off rights unless you satisfy a 'condition of release' under superannuation law. You'll need to nominate another superannuation fund, retirement savings account or approved deposit fund to transfer the funds into. If you don't, we'll transfer the amount to the Fund's nominated eligible rollover fund.

If you'd like to have any 'unrestricted non-preserved' amount repaid, write to us stating that you want to be repaid during the cooling-off period (please include your account number). Your request must reach our Sydney office before the end of the cooling-off period.
