Perpetual ESG Credit Income Fund

About the Fund

The Perpetual ESG Credit Income Fund is an actively managed credit fund that aims to provide investors regular income and potential for above cash rate total returns by investing in a diversified portfolio of income generating securities that meet Perpetual's ESG and value-based criteria.

Before being considered for investment by the Fund, issuers must pass a series of exclusionary screens. The screening processes is designed to limit the Fund's investible universe to only those issuers that meet minimum values-based and ESG standards.

The Fund first applies a values-based exclusionary screen which is followed by an ESG exclusionary screen. An alternative screening process applies to Sovereign Issuers. The issuers which pass all of the applicable screens then form the Fund's investible universe. The Portfolio Manager then constructs the portfolio from these issuers.

For more information on the exclusionary screens applied by the Fund refer to the PDS.

Fund design

The Perpetual ESG Credit Income Fund is designed for investors who are seeking regular income and potential for consistent returns above the benchmark (before fees and taxes) through investment in a diverse range of income generating assets that meet Perpetual's ESG and values-based criteria, have a minimum investment timeframe of three years or longer and are comfortable with the risks associated with the Fund. The Fund has a risk level of Low to Medium*.
