

THE ELEMENTS FOR BUSINESS INTELLIGENCE

PERPETUAL

21/07/2016

ABSPerpetual Business Intelligence provides real-time access into Australia's securitisation data warehouse, representing more than \$320 billion in Australian mortgage assets and over 150 million loan records. With interactive reporting and analytics, clients can quickly and visually access information they would not otherwise have access to.

In this video, Perpetual's Richard McCarthy and Matt Neece explain why this interactive reporting and analytics service is unique in the Australian market.
