Directors' report

The directors of Perpetual Investment Management Limited (a wholly owned subsidiary of Perpetual Limited), the Responsible Entity of Perpetual ESG Australian Share Fund (the Scheme), present their report together with the financial statements of the Scheme for the year ended 30 June 2025 and the auditor's report thereon.

Responsible Entity

The Responsible Entity of Perpetual ESG Australian Share Fund is Perpetual Investment Management Limited (ABN 18 000 866 535). The Responsible Entity's registered office and principal place of business is Level 14, 123 Pitt Street, Sydney, NSW 2000.

Directors

The following persons held office as directors of Perpetual Investment Management Limited during the year or since the end of the year and up to the date of this report:

A Apted (appointed 9 April 2020)

J MacNevin (appointed 1 January 2025)

A Serhan (appointed 1 July 2024)

S Mosse (appointed 30 November 2023, resigned 31 December 2024)

A Rozenauers (appointed 9 November 2022, resigned 1 July 2024)

Principal activities

The principal activity of the Scheme is to provide unitholders with long-term capital growth and regular income through investment predominantly in quality Australian shares that meet Perpetual's ESG and values-based criteria.

The Scheme did not have any employees during the year.

There were no significant changes in the nature of the Scheme's activities during the year.

Review and results of operations

During the year, the Scheme's assets were invested in accordance with the investment objective and guidelines as set out in the governing documents of the Scheme and in accordance with the provisions of the Scheme's Constitution.

The performance of the Scheme, as represented by the results of its operations, was as follows:

	30 June 2025	30 June 2024
Operating profit/(loss) (\$'000)	71,967	69,779
Class A		
Distributions paid and payable (\$'000)	69,043	56,176
Distributions (cents per unit)	24.88	18.68
Class E - Active ETF		
Distributions paid and payable (\$'000)	1,492	499
Distributions (cents per unit)	37.83	26.05

Interests in the Scheme

The movement in units on issue in the Scheme during the year is disclosed in note 5 to the financial statements.

The value of the Scheme's assets and liabilities is disclosed in the statement of financial position and derived using the basis set out in note 2 to the financial statements.

Directors' report (continued)

Significant changes in state of affairs

In May 2025, the Responsible Entity completed the transition of the Scheme's external registry service providers from Tech Mahindra Limited to MUFG Corporate Markets. The registry service provider manages a range of administrative functions for the Scheme, including (but not limited to) processing unitholder transactions and maintaining unitholder details.

From 17 March 2025, the Scheme's units in Class E - ETMF (ASX: GIVE) are referred to as Class E - Active ETF following the name change from Perpetual ESG Australian Share Fund (Managed Fund) to Perpetual ESG Australian Share Active ETF.

In the opinion of the directors, there were no other significant changes in the state of affairs of the Scheme during the financial year.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2025 that has significantly affected or may significantly affect:

- (i) the operations of the Scheme in future financial years; or
- (ii) the results of those operations in future financial years; or
- (iii) the state of affairs of the Scheme in future financial years.

Likely developments and expected results of operations

The Scheme will continue to be managed in accordance with the investment objective and guidelines as set out in the governing documents of the Scheme and in accordance with the provisions of the Scheme's Constitution.

The results of the Scheme's operations will be affected by a number of factors, including the performance of investment market in which the Scheme invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Environmental regulation

The operations of the Scheme are not subject to any particular or significant environmental regulations under a law of the Commonwealth, or of a State or Territory.

Fees paid to the Responsible Entity or its related parties

Fees paid to the Responsible Entity or its related parties out of the Scheme's property during the year are disclosed in note 11 to the financial statements.

No fees were paid out of the Scheme's property to the directors of the Responsible Entity during the year.

Indemnity and insurance of officers and auditors

No insurance premiums are paid for out of the assets of the Scheme in regard to insurance cover provided to either the officers of Perpetual Investment Management Limited or the auditor of the Scheme. So long as the officers of Perpetual Investment Management Limited act in accordance with the Scheme's Constitution and the law, the officers remain indemnified out of the assets of the Scheme against losses incurred while acting on behalf of the Scheme. The auditor of the Scheme is in no way indemnified out of the assets of the Scheme.

Rounding of amounts to the nearest thousand dollars

The Scheme is an entity of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191. Amounts in the directors' report have been rounded to the nearest thousand dollars in accordance with the legislative instrument, unless otherwise indicated.

Directors' report (continued)

Lead auditor's independence declaration

A copy of the lead auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 5.

This report is made in accordance with a resolution of the directors.

Director

Sydney

17 September 2025

Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

To the Directors of Perpetual Investment Management Limited as the Responsible Entity of Perpetual ESG Australian Share Fund

I declare that, to the best of my knowledge and belief, in relation to the audit of Perpetual ESG Australian Share Fund for the financial year ended 30 June 2025 there have been:

- i. no contraventions of the auditor independence requirements as set out in the *Corporations Act* 2001 in relation to the audit; and
- ii. no contraventions of any applicable code of professional conduct in relation to the audit.

The above statement of cash flows should be read in conjunction with the accompanying notes.

1 General information

These financial statements cover Perpetual ESG Australian Share Fund (the Scheme) as an individual entity. The Scheme is a registered managed investment scheme under the *Corporations Act 2001*. The Scheme was constituted on 18 March 2002. The Scheme will terminate on 16 March 2082 unless terminated earlier in accordance with the provisions of the Scheme's Constitution (as amended). The Scheme is domiciled in Australia.

The Responsible Entity of the Scheme is Perpetual Investment Management Limited. The Responsible Entity's registered office is Level 14, 123 Pitt Street, Sydney, NSW 2000.

The financial statements were authorised for issue by the directors of the Responsible Entity on 17 September 2025. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

2 Summary of material accounting policies

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001*. The Scheme is a for-profit entity for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within twelve months, except for financial assets at fair value through profit or loss and net assets attributable to unitholders.

The Scheme manages financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within twelve months, however, an estimate of that amount cannot be determined at the reporting date.

Compliance with International Financial Reporting Standards

The financial statements also comply with International Financial Reporting Standards and Interpretations issued by the International Accounting Standards Board.

Functional and presentation currency

The financial statements are presented in Australian dollars, which is the Scheme's functional currency.

Use of estimates

Management makes estimates and assumptions that affect the reported amounts in the financial statements. Estimates and associated assumptions are reviewed regularly and are based on historical experience and various other factors, including expectations of future events that are believed to be reasonable under the circumstances. Where applicable to the fair value measurement, the current changing market conditions are assessed and estimated. Actual results may differ from these estimates.

The use of estimates and critical judgements in fair value measurement that can have significant effect on the amounts recognised in the financial statements is described in note 12(d).

New standards, amendments and interpretations adopted by the Scheme

There are no new accounting standards, amendments and interpretations that are effective for the first time for the reporting period beginning 1 July 2024 and have a material impact on the financial statements of the Scheme.

(a) Basis of preparation (continued)

New standards, amendments and interpretations effective after 1 July 2025 and have not been early adopted

A number of new accounting standards, amendments and interpretations have been published that are not mandatory for the 30 June 2025 reporting period and have not been early adopted in preparing these financial statements. Most of these are not expected to have a material impact on the financial statements of the Scheme. However, management is still in the process of assessing the impact of these new standards and amendments.

- AASB 2024-2 Amendments to Australian Standards Classification and Measurement of Financial Statement
 Instruments [AASB 7 & AASB 9] (effective for reporting periods beginning on or after 1 January 2026). These
 amendments include clarifying the date of recognition and derecognition of some financial assets and liabilities, with
 a new exception for some financial liabilities settled through an electronic cash transfer system.
- AASB 18 Presentation and Disclosure in Financial Statements (effective for reporting periods beginning on or after 1 January 2027) which was issued in June 2024 and replaces AASB 101 Presentation of Financial Statements. AASB 18 introduces new requirements for the presentation of the statement of comprehensive income, including specified totals and subtotals. Furthermore, all income and expenses within statement of comprehensive income are required to be classified into one of five categories: operating, investing, financing, income taxes and discontinued operations. It also requires disclosure of management-defined performance measures, subtotal of income and expenses, and includes the new requirements for aggregation and disaggregation of financial information based on identified roles of the primary statement and the notes.

(b) Financial instruments

(i) Classification

The Scheme classifies its investments based on its business model for managing those financial instruments and their contractual cash flow characteristics. The Scheme's investment portfolio is managed and its performance is evaluated on a fair value basis in accordance with the Scheme's documented investment strategy. The Scheme's policy is to evaluate the information about its investments on a fair value basis together with other related financial information.

Equity securities are classified as financial assets at fair value through profit or loss.

(ii) Recognition/derecognition

The Scheme recognises its investments on the date it becomes party to the purchase contractual agreement (trade date) and recognises changes in fair value of the financial instruments from this date.

Investments are derecognised on the date the Scheme becomes party to the sale contractual agreement (trade date).

(iii) Measurement

At initial recognition, investments are measured at fair value. Transaction costs are expensed in profit or loss as incurred. Subsequently, all investments are measured at fair value without any deduction for estimated future selling costs. Gains and losses arising from changes in the fair value measurement are recognised in profit or loss in the period in which they arise.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Further details of fair value measurement are disclosed in note 12(d).

(iv) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

(c) Net assets attributable to unitholders

Units are redeemable at unitholders' option. However, applications and redemptions may be suspended by the Responsible Entity if it is in the best interests of the unitholders.

The units in Class E - Active ETF are traded on the ASX at the prevailing market price at the time of the transaction, which may not be equal to the net asset value per unit of the Class E - Active ETF.

The units in Class A can be put back to the Scheme at any time for cash based on the redemption price, which is a reasonable approximation of the proportionate share of the Scheme's net asset value. The carrying amount of these units at the redemption price represents the expected cash flows on redemption of these units at the reporting date if the unitholders exercise their right to put the units back to the Scheme.

Under AASB 132 Financial instruments: Presentation, puttable financial instruments are classified as equity where certain strict criteria are met. The Scheme does not meet the criteria as the Scheme issues more than one class of units that have different contractual features. Consequently, the Scheme classifies the net assets attributable to unitholders as financial liability.

The carrying amount of net assets attributable to unitholders is a reasonable approximation of fair value.

(d) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash at bank and other short term and highly liquid financial assets with a maturity period of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

The carrying amount of cash and cash equivalents is a reasonable approximation of fair value.

(e) Receivables

Receivables include accrued income and application monies receivable.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Scheme measures the loss allowance on receivables at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Scheme measures the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counterparty, probability that the counterparty will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance.

The amount of the impairment loss is recognised in profit or loss within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

The carrying amount of receivables is a reasonable approximation of fair value due to their short term nature.

(f) Payables

Payables include accrued expenses, redemption monies owing by the Scheme and payables for securities purchased which are unpaid at the end of the reporting period.

The carrying amount of payables is a reasonable approximation of fair value due to their short term nature.

(g) Investment income

Interest income from financial assets at amortised cost is recognised using the effective interest method and includes interest from cash and cash equivalents.

Dividend income from financial assets at fair value through profit or loss is recognised in profit or loss when the Scheme's right to receive payment is established.

Other changes in fair value for such instruments are recorded in accordance with the accounting policies described in note 2(b).

(h) Expenses

All expenses, including Responsible Entity's fees, are recognised in profit or loss on an accruals basis.

(i) Income tax

The Scheme is not subject to income tax provided the taxable income of the Scheme is attributed to its unitholders each financial year. Unitholders are subject to income tax at their own marginal tax rates on amounts attributed to them.

The benefits of franking credits and foreign tax paid are passed on to unitholders, provided certain conditions are met.

(j) Distributions

In accordance with the Scheme's Constitution, the Scheme distributes its distributable income and any other amounts as determined by the Responsible Entity.

(k) Changes in net assets attributable to unitholders

Income not distributed is included in net assets attributable to unitholders. Changes in net assets attributable to unitholders are recognised in the profit or loss as finance costs.

(I) Goods and Services Tax

The Goods and Services Tax (GST) is incurred on the cost of various services provided to the Scheme by third parties. The Scheme qualifies for Reduced Input Tax Credit (RITC); hence expenses such as Responsible Entity's fees have been recognised in profit or loss net of the amount of GST recoverable from the Australian Taxation Office. Payables are inclusive of GST. The net amount of GST recoverable is included in receivables in the statement of financial position. Cash flows are included in the statement of cash flows on a gross basis.

(m) Foreign currency translation

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the date of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value was determined. Translation differences on assets and liabilities carried at fair value are reported in profit or loss on a net basis within net gains/(losses) on financial instruments at fair value through profit or loss.

(n) Segment Information

The Scheme is organised into one main operating segment with only one key function, being the investment of funds predominantly in Australia.

(o) Rounding of amounts

The Scheme is an entity of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191*. Amounts in the financial statements have been rounded to the nearest thousand dollars in accordance with the legislative instrument, unless otherwise indicated.

3 Other expenses

Closing balance	4,069	2,187	12,312	6,611
Total		_	595,866	603,090

^{*}Previously referred to as Class E - ETMF

As stipulated within the Scheme's Constitution, each unit in a unit class represents a right to a unit in the relevant class within the Scheme and does not extend to a right to the underlying assets of the Scheme. The Scheme issues two classes of units: Class A and Class E - Active ETF. All classes of units are exposed to the same underlying pool of assets. The unit classes are generally differentiated by the management fee structure.

Capital risk management

The Scheme considers its net assets attributable to unitholders as capital, notwithstanding net assets attributable to unitholders are classified as a liability. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Scheme is subject to daily applications and daily redemptions at the discretion of unitholders.

Applications and redemptions are reviewed relative to the liquidity of the Scheme's underlying assets on a daily basis by the Responsible Entity. Under the terms of the Scheme's Constitution, the Responsible Entity has the discretion to reject an application and to defer or adjust a redemption if the exercise of such discretion is in the best interests of unitholders.

11 Related party transactions

Responsible Entity

The Responsible Entity of Perpetual ESG Australian Share Fund is Perpetual Investment Management Limited (ABN 18 000 866 535), a wholly owned subsidiary of Perpetual Limited (ACN 000 431 827).

The Scheme does not employ personnel in its own right. However, it is required to have an incorporated Responsible Entity to manage the activities of the Scheme and this is considered the key management personnel.

Key management personnel

(a) Directors

The directors of Perpetual Investment Management Limited during the year or since the end of the year and up to the date of this report were as follows:

A Apted (appointed 9 April 2020)

J MacNevin (appointed 1 January 2025)

A Serhan (appointed 1 July 2024)

S Mosse (appointed 30 November 2023, resigned 31 December 2024)

A Rozenauers (appointed 9 November 2022, resigned 1 July 2024)

(b) Other key management personnel

There were no other persons with responsibility for planning, directing and controlling the activities of the Scheme, directly or indirectly, during the year or since the end of the year.

Transactions with key management personnel

Key management personnel services are provided by Perpetual Investment Management Limited and included in the Responsible Entity's fees. There is no separate charge for these services. There was no compensation paid directly by the Scheme to any of the key management personnel during the year.

The Scheme has not made, guaranteed or secured, directly or indirectly, any loans to the key management personnel or their related entities at any time during the reporting period.

Responsible Entity's fees and other transactions

Under the terms of the Scheme's Constitution, the Responsible Entity is entitled to receive management fees. The Scheme incurred management fees (inclusive of GST and net of RITC) of 1.175% per annum for Class A and 0.650% per annum for Class E - Active ETF for the year ended 30 June 2025. The management fees are calculated by reference to the net asset value of the Scheme.

The Responsible Entity is also entitled to receive a performance fee if the performance of the Scheme exceeds its benchmark as disclosed in the Scheme's Product Disclosure Statement.

The transactions during the year and amounts payable at the reporting date between the Scheme and the Responsible Entity were as follows:

	30 June 2025	30 June 2024
	\$	\$
Responsible Entity's fees	7,408,466	7,740,516
Responsible Entity's fees payable	670,863	649,232
Performance fees	-	32,031

12 Financial risk management

The Scheme's operating activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk.

A risk management framework has been established by the Responsible Entity of the Scheme to monitor the Scheme's compliance with its governing documents and to minimise risks in its investment activities. This framework incorporates a regular assessment process to ensure procedures and controls adequately manage the investment activities. The Scheme is permitted to use derivative products. However, the use of derivatives must be consistent with the investment strategy and restrictions specified in the Scheme's governing documents.

All investment securities present a risk of loss of capital. The maximum loss of capital on investment securities is generally limited to the fair values of those positions.

The Scheme's asset managers aim to manage these risks through the use of consistent and carefully considered investment strategy and guidelines specifically tailored for the Scheme's investment objective. Risk management techniques are used in the selection of investments. Asset managers will only purchase securities (including derivatives) which meet the prescribed investment criteria. Risk may also be reduced by diversifying investments across several asset managers, markets, regions or different asset classes and counterparties.

The Scheme uses different methods to measure different types of risks to which it is exposed. These methods include sensitivity analysis in the case of currency risk, interest rate risk and price risk; and credit ratings analysis for credit risk.

(a) Market risk

(i) Currency risk

Currency risk arises as the fair value or future cash flows of monetary assets and liabilities denominated in foreign currency will fluctuate due to changes in exchange rates. The currency risk relating to non-monetary assets and liabilities is a component of price risk and not currency risk. However, management monitors the exposures on all foreign currency denominated assets and liabilities.

The Scheme holds foreign currency forward contracts to protect the valuation of financial assets and liabilities against variations in the exchange rates. The Scheme does not designate any derivatives as hedges, and hence these derivative financial instruments are classified at fair value through profit or loss.

The Scheme did not have a significant exposure to currency risk (net of foreign currency exposure arising from derivatives) at the reporting date.

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Scheme is exposed to cash flow interest rate risk on financial instruments with floating interest rates. Financial instruments with fixed interest rates expose the Scheme to fair value interest rate risk.

The Scheme's exposure to interest rate risk arises from cash and cash equivalents, which earn/charge a floating rate of interest.

(a) Market risk (continued)

(ii) Interest rate risk (continued)

The following tables summarise the Scheme's exposure to interest rate risk:

30 June 2025	Floating interest rate \$'000	Fixed interest rate \$'000	Non-interest bearing \$'000	Total \$'000
Financial assets Cash and cash equivalents	62,710		-	62,710
30 June 2024	Floating interest rate \$'000	Fixed interest rate \$'000	Non-interest bearing \$'000	Total \$'000
Financial assets Cash and cash equivalents	56,786	-	-	56,786

The table presented in note 12(a)(iv) summarises sensitivity analysis to interest rate risk. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

(iii) Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk).

The Scheme is exposed to price risk predominantly through its investments for which prices in the future are uncertain.

The fair value of the Scheme's investments exposed to price risk was as follows:

	30 June 2025 \$'000	30 June 2024 \$'000
Equity securities	<u>591,316</u>	581,831
	591,316	581,831

The table presented in note 12(a)(iv) summarises sensitivity analysis to price risk. This analysis assumes that all other variables remain constant.

(a) Market risk (continued)

(iv) Sensitivity analysis

The following table summarises the sensitivity of the operating profit and net assets attributable to unitholders to price risk. The reasonably possible movements in the risk variables have been determined based on management's estimates, having regard to a number of factors, including historical levels of changes in interest rates and historical correlation of the Scheme's investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusual large market movements resulting from changes in the performance of and/or correlation between the performance of the economies, markets and securities in which the Scheme invests. As a result, historic variations in risk variables should not be used to predict future variations in the risk variables.

	Sensitivity rates	Impact on operating profit/net assets attributable to unitholders	
		30 June 2025	30 June 2024
		\$'000	\$'000
Interest rate risk	+1%	627	568
	-1%	(627)	(568)
Price risk	+10%	59,132	58,183
	-10%	(59,132)	(58,183)

(b) Credit risk

Credit risk is the risk that a counterparty will be unable to pay amounts when they fall due. The Scheme is exposed to counterparty credit risk on cash and cash equivalents. The maximum exposure to credit risk at the reporting date is the carrying amount of the financial assets. None of these assets are impaired or past due but not impaired.

Cash and cash equivalents

The exposure to credit risk for cash and cash equivalents is low as all counterparties have a high grade credit rating.

(c) Liquidity risk

Liquidity risk is the risk that the Scheme will not be able to meet its financial obligations as they fall due.

The Scheme is exposed to daily cash redemptions of redeemable units.

The Scheme's investments in equity securities are considered to be readily realisable. The Scheme primarily holds investments in an active market which can be readily disposed. Only a limited proportion of these investments may not be actively traded on a stock exchange.

In order to manage the Scheme's overall liquidity, asset managers will only purchase securities (including derivatives) which meet the Scheme's investment criteria, including the assessment of saleability in different market conditions. The Scheme's investment strategy generally defines a minimum liquidity level for the Scheme which is monitored regularly.

(c) Liquidity risk (continued)

The following tables summarise the contractual maturities of financial liabilities, including interest payments where applicable:

	Contractual cash flows				
30 June 2025	Carrying amount \$'000	less than 6 months \$'000	6-12 months \$'000	more than 12 months \$'000

30 June 2024	Carrying amount	Cor less than 6 months	tractual cash flow 6-12 months	ws more than 12 months	
30 June 2024	, ,	less than 6	6-12	more than 12	
30 June 2024 Non-derivative financial liabilities	amount	less than 6 months	6-12 months	more than 12 months	
	amount	less than 6 months	6-12 months	more than 12 months	
Non-derivative financial liabilities	amount \$'000	less than 6 months \$'000	6-12 months	more than 12 months	
Non-derivative financial liabilities Distributions payable	amount \$'000 35,055	less than 6 months \$'000	6-12 months	more than 12 months	

(d) Fair value measurement

The Scheme classifies fair value measurement of its financial assets and liabilities by level of the following fair value hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2); and
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

(i) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets is based on quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

Equity securities are valued at the last traded price. For the majority of these financial instruments, information provided by the independent pricing services is relied upon for valuation.

(d) Fair value measurement (continued)

(ii) Fair value in an inactive or unquoted market (level 2 and level 3)

The fair value of financial assets and liabilities that are not traded in an active market is determined by using valuation techniques. These include the use of recent arm's length transactions, reference to current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation techniques that provide a reliable estimate of prices obtained in actual market transactions.

Valuation models use observable data to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Changes in the assumptions for these factors could affect the reported fair value of financial instruments. The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions held.

The Scheme did not hold any financial instruments with fair value measurements using significant unobservable inputs (level 3) at 30 June 2025 and 30 June 2024.

Recognised fair value measurements

The following tables present the Scheme's financial assets and liabilities by fair value hierarchy levels:

30 June 2025	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial assets at fair value through profit or loss				
Equity securities	591,316			591,316
Total	591,316			<u>591,316</u>
	Level 1	Level 2	Level 3	Total
30 June 2024	\$'000	\$'000	\$'000	\$'000
Financial assets at fair value through profit or loss				
Equity securities	581,831	_		581,831
Total	581,831	<u>-</u>	<u>-</u>	581,831

Transfers between levels

The Scheme's policy is to recognise transfers into and transfers out of the fair value hierarchy levels at the end of the reporting period.

There were no transfers between levels as at 30 June 2025 and 30 June 2024.

13 Events occurring after the reporting period

No significant events have occurred since the reporting date which would have an impact on the financial position of the Scheme as at 30 June 2025 or on the results and cash flows of the Scheme for the year ended on that date.

14 Contingent assets, liabilities and commitments

There were no outstanding contingent assets, liabilities or commitments as at 30 June 2025 and 30 June 2024.

Directors' declaration

In the opinion of the directors of Perpetual Investment Management Limited, the Responsible Entity of Perpetual ESG Australian Share Fund:

- (a) the financial statements and notes, set out on page 6 to 23, are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Australian Accounting Standards and the Corporations Regulations 2001; and
 - (ii) giving a true and fair view of the Scheme's financial position as at 30 June 2025 and of its performance for the financial year ended on that date;
- (b) there are reasonable grounds to believe that the Scheme will be able to pay its debts as and when they become due and payable; and
- (c) note 2(a) confirms that the financial statements comply with International Financial Reporting Standards and Interpretations as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the directors.

Director

Sydney

17 September 2025

Independent Auditor's Report

To the Unitholders of Perpetual ESG Australian Share Fund

Opinion

We have audited the *Financial Report* of Perpetual ESG Australian Share Fund (the Scheme).

In our opinion, the accompanying Financial Report of the Scheme gives a true and fair view, including of the Scheme's financial position as at 30 June 2025 and of its financial performance for the year then ended, in accordance with the Corporations Act 2001, in compliance with Australian Accounting Standards and the Corporations Regulations 2001.

The Financial Report comprises:

- Statement of financial position as at 30 June 2025
- Statement of comprehensive income, Statement of changes in equity, and Statement of cash flows for the year then ended;
- Notes, including material accounting policies
- Directors' Declaration.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Scheme and Perpetual Investment Management Limited (the Responsible Entity) in accordance with the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the Financial Report in Australia. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Report of the current period.

This matter was addressed in the context of our audit of the Financial Report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Valuation and existence of financial assets (\$591.32m) at fair value through profit or loss

Refer to Notes 2(b), 6 and 12(d) to the Financial Report

The key audit matter

The Scheme's financial assets at fair value through profit or loss (FVTPL) comprise investments in equity securities;

The Scheme outsources certain processes and controls relevant to:

- Recording and valuing investments to the investment administrator;
- Maintaining custody and underlying records of investments to the custodian;
- Initiating and executing the purchase and sale of investments to the investment manager.

Valuation and existence of financial assets at FVTPL is a key audit matter due to the:

- Overall size of the Scheme's portfolio of investments which are significant to its financial position. The Scheme's investments in equity securities comprise 90% of the Scheme's total assets at year-end;
- Importance of the performance of these investments in driving the Scheme's investment income and capital performance, as reported in the Financial Report;

As a result, this was the area with greatest effect on our overall audit strategy and allocation of senior resources in planning and performing our audit. In assessing this Key Audit Matter, we involved our valuation specialists, who understand the Scheme's investment profile and business and the economic environment it operates in.

How the matter was addressed in our audit

Our procedures included:

- We assessed the appropriateness of the accounting policies applied by the Scheme, including those relevant to the fair value of investments, against the requirements of the accounting standards.
- We obtained and read the Scheme's custodian's SOC1 (System and Organisation Controls 1) assurance reports for the 1 April 2024 to 31 March 2025 to understand the processes and assess the controls relevant to the:
 - Custodian to maintain custody and underlying records of the Scheme's investments:
- We obtained and read the Scheme's investment administrator's and investment manager's GS007 (Guidance Statement 007 Audit Implications of the Use of Service Organisations for Investment Management Services) assurance reports for the periods 1 April 2024 to 31 March 2025 and 1 July 2024 to 30 June 2025 respectively, to understand the processes and assess the controls relevant to:
 - Investment administrator to record and value the Scheme's investments; and
 - Investment manager to initiate and execute the purchase and sale of the Scheme's investments.
- We obtained and read the Scheme's custodian's and investment administrator's bridging letters over the period not covered by the SOC1 and GS007 assurance reports. We compared the information presented in the bridging letter for consistency with those in the SOC1 and GS007 assurance reports.
- We assessed the reputation, professional competence and independence of the auditors of the GS007 and SOC1 assurance reports.
- With the involvement of our valuation

specialists, we checked the valuation of the investments, as recorded in the general ledger, to independently sourced prices from relevant stock exchanges as at 30 June 2025.

- We checked the existence of a sample of investments, being the ownership and quantity held to external custody reports as at 30 June 2025.
- We evaluated the Scheme's disclosures of investments, using our understanding obtained from our testing, against the requirements of the accounting standards.

Other Information

Other Information is financial and non-financial information in Perpetual ESG Australian Share Fund's annual report which is provided in addition to the Financial Report and the Auditor's Report. The Directors of the Responsibility Entity are responsible for the Other Information.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

Responsibilities of the Directors for the Financial Report

The Directors of the Responsible Entity are responsible for:

- preparing the Financial Report in accordance with the Corporations Act 2001, including giving a
 true and fair view of the financial position and performance of the Scheme, and in compliance
 with Australian Accounting Standards and the Corporations Regulations 2001.
- implementing necessary internal control to enable the preparation of a Financial Report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Scheme, and that is free from material misstatement, whether due to fraud or error
- assessing the Scheme's ability to continue as a going concern and whether the use of the going
 concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related
 to going concern and using the going concern basis of accounting unless they either intend to
 liquidate the Scheme or to cease operations or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing* and *Assurance Standards Board* website at:

https://www.auasb.gov.au/admin/file/content102/c3/ar2_2020.pdf. This description forms part of our Auditor's Report.
