Important notes

This PDS provides a summary of significant information and contains a number of references to other important information which also forms part of the PDS. You should consider all of this information before making a decision to invest in this product.

The information provided in the PDS is general information only and does not take account of your personal financial situation or needs. You should obtain financial advice tailored to your personal circumstances.

We may update the PDS with changes that are not materially adverse via disclosure on our website. You can also obtain a paper copy of any updates free of charge on request. The Target Market Determination (TMD) for the Trillium ESG Global Equity Fund is available on our website or by contacting us.

This PDS can only be used by investors receiving it (electronically or otherwise) in Australia or New Zealand. All amounts in this PDS are in Australian dollars and all times quoted are Sydney time (unless otherwise specified). A business day is a working day for Perpetual Investment Management Limited (PIML) in Sydney.

New Zealand investors

You should also read the 'Important additional information for New Zealand investors' in the separate 'Additional information' document.

PRODUCT DISCLOSURE STATEMENT (PDS) ISSUE NUMBER 3 DATED 4 DECEMBER 2023

Responsible entity and PDS issuer

Perpetual Investment Management Limited
ABN 18 000 866 535 AFSL 234426

Investment manager

Trillium Asset Management, LLC

1. About Perpetual Investment Management Limited

Responsible entity

Perpetual Investment Management Limited (PIML, we, us, our or Perpetual) is:

- the responsible entity of the Trillium ESG Global Equity Fund (Fund)
- the issuer of units in the Fund and this PDS.

PIML is a wholly owned subsidiary of Perpetual Limited (ABN 86 000 431 827) and part of the Perpetual Group (Perpetual Limited and its subsidiaries), which has been in operation for over 130 years.

As the responsible entity of the Fund, our main responsibilities are to manage the Fund according to its constitution (copy available free of charge by contacting us) and investment strategy as well as properly administering it. An investment committee has been established to set the investment objectives, investment guidelines and investment approach for the Fund. We may change the Fund's investment strategy whenever we believe it's in the best interests of investors, in accordance with the Fund's constitution.

In carrying out our duties, we are subject to the Corporations Act and must:

- act honestly and in the best interests of investors
- exercise care and diligence.

Subject to the Corporations Act:

- we're not liable to investors for any losses in any way relating to the Fund, except to the extent to which the loss is caused by our fraud, negligence or breach of trust
- our liability is limited to our ability to be indemnified out of the assets of the Fund.

Investment manager

PIML has appointed Trillium Asset Management, LLC (Trillium) as the investment manager for the Fund. Trillium is an investment management firm, based in Boston, MA (USA), which has been devoted exclusively to sustainable and responsible investing since its founding in 1982. Trillium is also a wholly owned subsidiary of Perpetual Limited and part of the Perpetual Group. Perpetual Corporate Trust Limited (ABN 99 000 341 533, AFSL 392673) has appointed Trillium as its authorised representative (Representative number 001282762) under its Australian Financial Services Licence.

2. How the Trillium ESG Global Equity Fund works

The Fund is a managed investment scheme that is registered (ARSN 642 702 789) with the Australian Securities and Investments Commission (ASIC).

The Fund commenced in August 2020. Any reference to the Fund in this PDS is a reference to the Fund's Class A units (APIR code PER2095AU).

The Fund's constitution also allows for a class of units in the Fund to be quoted and admitted to trading status on a financial market, such as the Australian Securities Exchange (ASX), in the future, subject to PIML deciding to do so and approval by the operator of the financial market. No representation is made concerning the quotation or the admission of a class of units in the Fund to trading status on a financial market.

Investors

We authorise the use of this PDS as disclosure for both investors investing directly in the Fund and indirect investors that wish to access the Fund through an investor directed portfolio service (IDPS), IDPS-like scheme, a nominee or custody service or any other trading platform authorised by PIML (collectively referred to in this PDS as a 'Service').

If you are an indirect investor gaining exposure to the Fund through a Service, you do not yourself become an investor in the Fund. Instead, it is the Service operator, which invests for you and acts on your behalf, that has the rights of an investor. Certain provisions of the Fund's constitution are not relevant to indirect investors. For example, indirect investors cannot attend investor meetings or transfer or mortgage units in the Fund. You can request reports on your investment in the Fund from the Service operator and you should direct any inquiries to them.

'You' or 'your' refers to direct (including Service operators) and/or indirect investors in the Fund, as the context requires.

When you invest in the Fund, your money is pooled with investments from other investors and used to buy assets for the Fund, which the investment manager manages on behalf of all investors. Each unit that you hold in the Fund confers a proportional beneficial interest in the Fund. However, you are not entitled to any particular asset of the Fund and we, rather than you, have ownership and control over the Fund's assets, management and operation.

Value of your investment

When you invest, you will be allocated units in the Fund. The value of your investment in the Fund will vary as the Fund's units daily unit price changes to reflect increases or decreases in the market value of the Fund's assets.

Investments and withdrawals

Direct investors

Investments

The minimum initial investment in the Fund is \$25,000, which may be paid by cheque or direct debit.

You can increase your interest in the Fund at any time with additional investments of at least \$2,000 by BPAY® or direct debit.

® Registered to BPAY Pty Ltd ABN 69 079 137 518.

You can also establish a **savings plan** to make regular investments (minimum \$100) in the Fund automatically by direct debit from your nominated Australian bank, building society or credit union account on a fortnightly, monthly or quarterly basis.

Withdrawals

You can withdraw all or part of your investment in the Fund at any time as long as you maintain a minimum balance (currently \$25,000) after any partial withdrawal, otherwise we may close your account and pay the balance of your investment to you.

You can also establish a **regular withdrawal plan** to receive automatic payments from your investment for pre-determined amounts (minimum \$100) on a monthly, quarterly, half-yearly or yearly basis.

Switches

You can generally switch all or part of your investment at any time between the Fund and certain other funds where PIML is also the responsible entity using the Perpetual Investment Funds switch form. This is subject to meeting the withdrawal and application criteria (including minimum amounts) specified in the relevant PDS.

Indirect investors

You can invest in or withdraw from the Fund by directing your Service operator to lodge an investment application or withdrawal request, as applicable, with us.

Please contact your Service operator for details about their following requirements and to obtain any relevant application, withdrawal and other forms:

- any minimum investment and withdrawal amounts
- processing requirements and timeframes
- distribution payment options
- identification verification procedures
- privacy policy.

How units are issued or withdrawn

Generally, if our Sydney office receives and accepts an investment application electronically or otherwise (including investment amounts received by BPAY, where applicable), switch or withdrawal request (including those made online via myPerpetual) by 3.00pm on any business day, it will be processed using that day's entry and/or exit price (as applicable). If received and accepted after 3.00pm, it will be processed using the next calculated entry and/or exit price. If it's a non-working day for PIML in Sydney, the investment or withdrawal will be processed using the next available entry and/or exit price.

The number of units issued for investment applications and switches into a fund is determined by dividing the investment or switch amount by the applicable entry price. The number of units withdrawn for withdrawals and

switches from a fund is determined by dividing the withdrawal or switch amount by the applicable exit price.

For current entry and exit prices, visit our website or contact us.

Suspension of applications and withdrawals

In certain emergency situations that impact the effective and efficient operation of a market for an asset in the Fund or in certain circumstances where we otherwise consider it to be in investors' interests, we may suspend processing all applications or withdrawals for the Fund in accordance with the Fund's constitution and the law. This may include situations where:

- we cannot properly ascertain the value of an asset held by the Fund
- an event occurs that results in PIML not being able to reasonably acquire or dispose of assets held by the Fund
- the law otherwise permits us to delay or restrict processing applications or withdrawals.

This means that there may be times when investors are unable to:

- invest additional amounts into the Fund
- withdraw from the Fund within the usual period of 14 business days from when we accept a withdrawal request.

Applications or withdrawal requests received during the suspension will be processed using the entry or exit price applicable when the suspension is lifted.

Withdrawal of large investments

We can in certain circumstances also delay or stagger the payment of a large withdrawal request into separate withdrawal requests. Each withdrawal request will be paid within 21 days.

Distributions

A distribution is the payment of the Fund's distributable income to investors at predetermined intervals. The distributable income may include interest, dividends, foreign income, realised net capital gains and other income. In some circumstances, the Fund may also distribute a payment out of the capital invested. The components of a distribution will depend on the nature of the Fund's underlying assets.

The distribution amount depends on the Fund's distributable income. The amount of your distribution will be proportionate to the number of units held relative to the number of units on issue at the end of the distribution period. The amount will vary and sometimes there might not be any distribution.

Distribution of the Fund's distributable income to investors generally occurs half-yearly as at 30 June and 31 December. Distributions not reinvested are generally paid within 21 days after the end of the distribution period. However, the Fund's constitution allows up to 90 days after the end of the distribution period.

The Fund's constitution lets us make special distributions on an interim basis without prior notice to you. We can also determine to reinvest part or all of your distribution in the Fund.

Direct investors

You can choose to have your distributions:

- reinvested in the Fund
- deposited into your nominated Australian bank, building society or credit union account.

If you don't make a choice or if we're unable to credit your nominated account (if applicable), we'll reinvest your distribution.

Indirect investors

Please refer to your Service operator for details of any distribution payment options.

Regular reporting

Direct investors

You will receive:

- an initial investment statement, generally within seven business days of your application being accepted and processed
- an additional investment statement, generally within seven business days of any additional investment (except savings plan investments) being accepted and processed

- a withdrawal statement, generally within seven business days of any partial (except regular withdrawal plan) or full withdrawal request being processed
- a distribution statement, generally within seven business days following the payment of any distributions
- an annual statement providing details of your investment as at 30 June each year
- an annual report (including financial statements) for each financial year ending 30 June will be available at our website (copy by mail available on request)
- an annual tax statement and tax guide for the financial year, generally sent by the end of August or shortly after to help you prepare your income tax return
- confirmation of any other transactions that we are required to report on.

Indirect investors

All reports will be sent directly to your Service operator. They will use this information to provide you with regular reporting and information to help you complete your income tax return. Please contact your Service operator with any investor inquiries.

Updated information

You can go to our website or contact us for the latest investment returns and any other updated information in relation to the Fund. Other general information is also provided in the Fund's annual report, which is also available at our website.

Interest earned on application, withdrawal and distribution accounts

Application money, proceeds of withdrawal requests and distribution amounts are held in trust accounts prior to being processed. A member of the Perpetual Group retains any interest earned on these accounts.

Further information

Further details about how the Fund works, including information about acquiring and disposing of interests and how units are priced and investments are valued, are contained in a separate document titled 'Trillium Global Funds – Additional information', which forms part of this PDS.

You should read the important information about how the Fund works before making a decision. Go to www.perpetual.com.au/trillium.

The material relating to how the Fund works may change between the time when you read this PDS and the day when the product is acquired.

3. Benefits of investing in Trillium ESG Global Equity Fund

The Fund is an actively managed, diversified portfolio of global equities, which provides the potential for long-term capital growth by investing in companies that are leaders in managing environmental, social and governance (ESG) risks and opportunities, have above average growth potential and are reasonably valued.

With a long history in shareholder advocacy and public policy work, Trillium leverages the power of company ownership to promote positive social and environmental change while seeking to fulfil the Fund's investment return objective.

Optional features for direct investors

The Fund offers the following features to make it easy for you to manage your account and keep track of your investment:

- **direct debit** – for authorising us to debit your nominated account directly to make your initial and/or additional investments
- **BPAY** – for making additional investments electronically
- **savings plan** – for making regular investments by direct debit
- **regular withdrawal plan** – for receiving regular payments from your investment
- **email** – for providing various instructions to us and requesting withdrawals

- **myPerpetual online access** – for accessing and viewing your investment information, transacting on your account and updating your personal details online
- **authorised representative** – you can appoint a person, partnership or company as your authorised representative to act on your behalf in relation to your investment.

Please refer to the separate 'Trillium Global Funds – Additional information' document for further details about these features.

4. Risks of managed investment schemes

All investments carry risk. The value of your investment may fall for a number of reasons, which means that you may receive back less than your original investment when you withdraw or you may not receive income over a given timeframe. Before making an investment decision, it's important to understand the risks that can affect the value of your investment. While it's not possible to identify every risk relevant to investing in the Fund, we have detailed in the following table significant risks (in no particular order) that may affect your investment.

Different strategies may carry different levels of risk, depending on the assets that make up the strategy, and assets with the highest long-term returns may also carry the highest level of short-term risk due to their generally larger fluctuations in returns.

While it is impossible to completely eliminate investment risks, Trillium aims to manage their impact by following consistent and carefully considered investment guidelines.

Perpetual Group has policies and procedures in place to manage any conflicts of interest, which ensure Perpetual's appointment and supervision of any related party is on arm's length terms and that any such related party performs its functions to the same standard as if the parties were not related and in the best interest of investors.

The level of risk for each person will vary depending on a range of factors including age, investment timeframe, other investments and risk tolerance. Your financial adviser can assist you in determining whether the Fund is suited to your financial needs and the level of diversification you need.

Neither PIML, Trillium nor any other company in the Perpetual Group guarantee that you will earn any return on your investment or that your investment will gain in value or retain its value. The level of returns will vary, and future returns may differ from past returns. Investment in the Fund is subject to investment risk, including possible delays in repayment and loss of income and capital invested.

Significant risks

Type of risk	Description of risk
Sustainability (ESG) approach risk	The Fund's ESG approach could cause it to perform differently compared to similar funds that do not have such an approach. The application of Trillium's social and environmental standards may affect the Fund's exposure to certain issuers, industries, sectors, and factors that may impact the relative financial performance of the Fund – positively or negatively – depending on whether such investments are in or out of favour.
Market and economic risk	Certain events may have a negative effect on the price of all types of investments within a particular market. These events may include changes in economic, social, technological or political conditions, as well as market sentiment, the causes of which may include changes in governments or government policies, political unrest, wars, terrorism, sanctions, pandemics and natural, nuclear and environmental disasters. The duration and potential impacts of such events can be highly unpredictable, which may give rise to increased and/or prolonged market volatility. Certain emerging markets, which are sometimes referred to as 'frontier markets', have the least advanced capital markets in the developing world and are among the riskiest markets in the world in which to invest. Frontier markets have the fewest number of investors and investment holdings and may not even have stock markets on which to trade. Investments in this sector are typically illiquid, non-transparent and subject to very low regulation levels as well as high transaction fees, and may also have substantial political and currency risk.
Asset risk	A particular asset that the Fund invests in may fall in value, which can result in a reduction in the value of your investment.
Company risk	When an investment in a company is made, an investor is exposed to many risks to which the company is exposed and may impact the value of the security. In addition, the market price of a company's securities may fluctuate in an unrelated or disproportionate way to the operating performance of the company. Larger, more established companies may be unable to respond quickly to new competitive challenges like changes in consumer tastes or innovative smaller competitors. In addition, large-cap companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion. Investments in small to mid-sized companies may be speculative and volatile and involve greater risks than are customarily associated with larger companies. Small to mid-sized companies may be subject to greater market risk and have less trading liquidity than larger companies. They may also have limited product lines, markets, or financial resources. For these reasons, investors should expect the Fund to be more volatile than a fund that invests exclusively in large-cap companies.
Currency risk	For investments in international assets, which have currency exposure, there is potential for adverse movements in exchange rates to reduce their Australian dollar value. For example, if the Australian dollar rises, the value of international investments expressed in Australian dollars can fall.
Liquidity risk	The absence of an established market or shortage of buyers for certain types of investments can result in a loss if the holder of the investment needs to sell it within a particular timeframe. A can also result in delays in the payment of withdrawals.
Derivatives risk	Derivative market values can fluctuate significantly and, as a result, potential gains and losses can be magnified. Losses can occur where the value of the derivative fails to move in line with the underlying asset or where a greater exposure to a market is created through the derivative position than is backed by the assets of the Fund. Other risks applying to derivatives include counterparty risk and liquidity risk, or where the derivative position is difficult or costly to reverse. A counterparty may also be required to take collateral from the Fund's assets to support a derivatives contract. Therefore, there is a risk that if the counterparty becomes insolvent, the Fund's assets may not be returned in full. Losses arising from the realisation of a derivative position may adversely impact the Fund's distributable income. See 'Use of derivatives' in section 5 for further details about how derivatives may be used in the management of the Fund.
Counterparty risk	A loss may occur if the other party to a contract, including derivatives contracts, defaults on their obligations under the contract.
Other investment risks	Investment professionals employed by investment managers may change, which may affect future investment performance. Investing in the Fund may have a different tax outcome than investing directly because of the application of tax laws to the Fund and the impact of investments and withdrawals by other investors. One result is that you may receive back some of your capital as income.

	Transactions may be suspended, which may result in delays in paying withdrawal requests. The Fund may be terminated.
Class risk	Separate classes of a Fund are not separate legal entities and the assets referable to each class will not be segregated. All of the assets of a Fund are available to meet all of its liabilities, regardless of the class to which such assets or liabilities are attributable. There is a risk that investors of different classes of a Fund may be exposed to liabilities of another class of units and these investors could lose some or all of their investment in a Fund. Also, there is a risk that in the event of an insolvency, the assets of a Fund could be made available to creditors of another class of units of a Fund.
Legal and regulatory risk	Changes in legislation and differences between rules (including interpretation of the law) in domestic and foreign markets, including those dealing with taxation, accounting and investments, may adversely impact your investment.
Conflicts risk	Conflicts of interest may arise between related parties appointed to provide services to the Fund.
Operational and cyber risks	The Fund's operations may be adversely impacted by breakdowns in internal/external administrative processes or circumstances beyond our reasonable control, such as failure of technology or infrastructure, or natural disasters. Despite security measures, fraud, data loss/damage or business disruption may result from cyber threats against or unauthorised infiltration of our technology systems and networks or those of our service providers.

5. How we invest your money

When choosing a fund in which to invest, you should consider the likely investment return, the risk and your investment timeframe. We recommend you consult a financial adviser for assistance in determining whether the Fund is appropriate for you.

Fund investments

Cash

Cash investments are limited to bank accounts.

Shares

Shares represent a portion of ownership in a company. Shareholders can benefit if a company passes on some of its profits to them through dividends and/or from capital growth if the share price rises.

Investment approach

Trillium believes that a company's understanding of sustainability principles can demonstrate the qualities of innovation and leadership that support the creation of a distinct competitive advantage and build long-term value. Trillium constructs the Fund's portfolio by first looking at the universe of companies included in the Fund's benchmark, supplemented by an analysis of companies outside of the Fund's benchmark. Within this investment universe the portfolio managers then identify individual companies that satisfy Trillium's proprietary fundamental and ESG criteria and screening process as outlined in the 'Trillium Global Funds' – Additional information book. Trillium believes that this creates a complete picture of how each company behaves commercially and how that company is seeking to deal with existing and emerging ESG risks and opportunities.

The Fund adopts a bottom-up company selection process.

The Fund invests in global shares and has exposure to both emerging (including frontier market countries) and developed markets. The Fund may invest in companies of any size, and seeks diversification by country and economic sector.

Trillium believes that finding companies that meet its financial and ESG standards is an important part of the process, but that it is also critical to make investments at reasonable valuations.

Trillium may sell shares for several reasons, including when the company no longer meets its ESG criteria or when the security declines in value or is overvalued and no longer reflects the investment thesis defined by Trillium. If this occurs, the company will be sold in a reasonable period as determined by Trillium.

Fundamental analysis

In Trillium's opinion, each company is unique in terms of its business and risk profile. In conducting fundamental research and ESG analysis, the portfolio managers seek to identify certain traditional business qualities in each of the companies it considers for the Fund. Identifying companies that meet Trillium's financial and ESG criteria is an important part of the process, while recognising that it is also critical to make investments at reasonable valuations. As a result, in conducting fundamental analysis when evaluating a company, Trillium considers factors, such as:

- The share price relative to earnings, cash flow, dividend yield, and book value;
- Valuation of the company relative to the company's history, peer group, and to the broad market;
- Balance sheet and debt service analysis, including various measures of financial leverage and interest coverage ratios
- Business practices that are adaptable and reflect industry best practices;
- A company's history of innovation and competitiveness
- A company's offering of products and services that meet important needs; and
- A company's market position and the potential for sustained long-term growth.

Environmental, social, governance and ethical factors

Trillium takes environmental, social (including labour standards) and ethical (ESG) factors into account when selecting, retaining or realising investments of the Fund. It integrates ESG factors into the investment process as a way of identifying the companies that it considers best positioned to deliver strong long-term performance.

When selecting companies for the Fund, Trillium's financial analysis includes a holistic review of ESG criteria and how they may impact a company's valuation or performance. These ESG criteria include key sustainability risks and opportunities spanning a range of topics including board diversity, climate change policies, supply chains and human rights policies. Trillium also excludes or restricts from investment individual companies on the basis of certain qualitative and quantitative screens. For more details on these screens, see "Business Activity Screens" in the 'Trillium Global Funds – Additional information' book.

The portfolio managers evaluate ESG factors for each company. The portfolio managers do not prioritize one set of factors over the others, although "E", "S" or "G" factors may be given more or less consideration depending on a company's particular industry. For example, Trillium may weigh social factors more heavily for a firm in the professional services industry and environmental factors more heavily for a manufacturing company. Similarly, Trillium's ESG criteria may be somewhat different across sectors, geographic regions or market capitalisations.

Some of the ESG criteria Trillium assesses may include:

- Environmental – Use of harmful pollutants and chemicals; raw material management; greenhouse gas emissions and use of renewable energy sources.
- Social – Payment of fair wages; human capital management strategy; encouragement of diversity and inclusion; support of LGBTQ rights.
- Governance – board diversity; independent roles of CEO and Board chair; reasonableness of executives' wages; dedication to corporate transparency.

Portfolio managers also analyse a company's ESG related policies and practices, including reviews of third-party evidence when available. For example, the portfolio managers may consider whether a company maintains an environmental management system certified to certain international standards, and also consider data from a variety of public sources including eligible company filings, other publicly available materials,

shareholder/investor events, and in certain cases, information resulting from direct communication with company.

ESG screening

Details of the exclusionary screen that forms part of Trillium's security selection process is contained in a separate document titled 'Trillium Global Funds – Additional information', which forms part of this PDS.

Currency hedging

The currency exposure in the Fund is unhedged.

Use of derivatives

A derivative is a financial instrument that derives its value from the price of a physical security or market index. Derivatives may include, but are not limited to, futures, options, swaps and forward foreign exchange contracts.

Derivatives may be used in the management of the Fund to:

- protect against changes in the market value of existing investments
- achieve a desired investment position without buying or selling the underlying physical asset
- protect against adverse currency movements.

Borrowing

The Fund's constitution allows the Fund to borrow. The Fund doesn't intend to borrow as part of its investment strategy, however borrowing may occur in the daily management of the Fund. To the extent permitted, the Fund may borrow from a variety of sources, including companies associated with the Perpetual Group (in which case the terms are set on a commercial and arm's length basis).

Fund profile

Trillium ESG Global Equity Fund	
Suitability	Designed for investors with the appropriate risk level, investment timeframe and objective – see below.
Risk level¹	6 – High
Minimum suggested timeframe²	Seven years or longer
Investment return objective	Aims to: <ul style="list-style-type: none"> • provide investors with long-term capital growth through investment in quality global shares using an integrated ESG approach • outperform the MSCI All Countries World Net Total Return Index (AUD) (before fees and taxes) over rolling three-year periods.
Investment guidelines³	
Global shares	90-100%
Cash	0-10%

1 See below for further information regarding risk level.

2 This is a guide only and not a recommendation. You should discuss your investment in the Fund with your financial adviser to ensure that it meets your needs.

3 You can obtain information on the actual asset allocations (updated as at the end of each month) from our website or by contacting us.

The **risk level** represents the Standard Risk Measure (SRM), which is based on industry guidance to allow investors to compare investment options that are expected to deliver a similar number of negative annual returns over any 20 year period, as follows.

Risk band	Risk label	Estimated number of negative annual returns over any 20 year period
1	Very low	Less than 0.5
2	Low	0.5 to less than 1
3	Low to medium	1 to less than 2
4	Medium	2 to less than 3
5	Medium to high	3 to less than 4
6	High	4 to less than 6
7	Very high	6 or greater

The SRM is not a complete assessment of all forms of investment risk, for instance it does not detail what the size of the negative return could be or the potential for a positive return to be less than an investor may require to meet their objectives. Further, it does not take into account the impact of administration fees and tax on the likelihood of a negative return. Investors should still ensure they are comfortable with the risks and potential losses associated with the Fund.

The SRM for the Fund may change over time for various reasons, including as a result of reviews of the underlying capital market assumptions that are used in its calculation and future changes to asset allocations. Any changes to the SRM at any time will be available at our website.

Further information

Further information about Trillium's ESG investment approach is contained in a separate document titled 'Trillium Global Funds – Additional information', which forms part of this PDS.

You should read the important information about how we invest your money before making a decision. Go to www.perpetual.com.au/trillium.

The material relating to how we invest your money may change between the time when you read this PDS and the day when the product is acquired.

6. Fees and costs

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** MoneySmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

Fees and costs summary

The information in the 'Fees and costs summary' can be used to compare costs between different managed investment schemes.

Unless otherwise stated, all fees and costs disclosed in this PDS are inclusive of the net effect of goods and services tax (GST).

Fees and costs can be paid directly from your account or deducted from investment returns or from the Fund's assets as a whole.

If you are an indirect investor, any additional fees that you may be charged by your Service operator for investing in the Fund via their Service should be set out in their disclosure document.

Fees and costs summary

Trillium ESG Global Equity Fund			
Type of fee or cost	Amount		How and when paid
Ongoing annual fees and costs			
Management fees and costs¹	Management fees and estimated management costs are 0.89%		Management fees, which are expressed as a percentage of the net asset value of each Fund, are calculated and accrued daily and generally paid to us monthly. They are deducted directly from each Fund's assets and reflected in its unit price. Management costs may be charged directly to the Funds and/or incurred indirectly in underlying funds. The method and frequency of deduction of each component differs (see 'Management costs' in this section for details).
The fees and costs for managing your investment			
Performance fees	Estimated transaction costs are Nil		Not applicable.
Amounts deducted from your investment in relation to the performance of the product			
Member activity related fees and costs (fees for services or when your money moves in or out of the product)²			
Establishment fee	Nil.		Not applicable.
The fee to open your investment			
Contribution fee	Nil.		Not applicable.
The fee on each amount contributed to your investment			
Buy/sell spread	Buy spread	Sell spread	Estimated transaction costs are allocated when an investor buys or sells units in a Fund by incorporating a buy/sell spread between the Fund's entry and exit unit prices, where appropriate.
An amount deducted from your investment representing costs incurred in transactions by the scheme	0.15%	0.15%	
Withdrawal fee	Nil.		Not applicable.
The fee on each amount you take out of your investment			
Exit fee	Nil.		Not applicable.
The fee to close your investment			
Switching fee	Nil.		Not applicable.
The fee for changing investment options			

1 We may negotiate a rebate of all or part of our management fee with certain direct investors that are wholesale clients (as defined by the Corporations Act). See 'Differential Fee's within 'Additional explanation of fees and costs' in the documented titled 'Trillium Global Funds – Additional information' for further information.

2 Direct investors may also authorise us to pay a member advice fee to your financial adviser (see 'Member advice fee – direct investors only' in this section for details).

Example of annual fees and costs

This table gives an example of how the ongoing annual fees and costs in Trillium ESG Global Equity Fund can affect your investment over a 1-year period. You should use this table to compare this product with products offered by other managed investment products.

Example – Trillium ESG Global Equity Fund		Balance of \$50,000 ¹ with a contribution of \$5,000 during year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.00
Plus	0.89%	And , for every \$50,000 you have in Trillium ESG Global Equity Fund you will be charged or have deducted from your investment \$445.00 each year
Management fees and costs		
Plus	0.00%	And , you will be charged or have deducted from your investment \$0.00 in performance fees each year
Performance fees		
Plus	0.00%	And , you will be charged or have deducted from your investment \$0.00 in transaction costs
Transaction costs		
Equals		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of \$445.00 .*
Cost of Trillium ESG Global Equity Fund		What it costs you will depend on the fees you negotiate.

1 We have assumed a constant value of \$50,000 for the whole year.

* Additional fees may apply:

A **buy spread** of 0.15%, equal to \$7.50 on a \$5,000 contribution, will also apply. **And**, if you leave the managed investment scheme, you will be charged a **sell spread** of 0.15%, equal to \$75.00 for every \$50,000 you withdraw.

Further information

Further information about fees and costs, including management fees and costs, transaction costs and maximum amounts allowable under the Fund's constitution, is available in a separate document titled 'Trillium – Additional information', which forms part of this PDS. The Fund's latest annual transaction costs and current buy/sell spread details, which also form part of this PDS, are publicly available at our website.

You should read the important information about fees and costs before making a decision. Go to www.perpetual.com.au/trillium.

The material relating to fees and costs may change between the time when you read this PDS and the day when the product is acquired.

7. How managed investment schemes are taxed

Your investment in a registered managed investment scheme is likely to have tax consequences for you each year, even if you don't change your investment. Registered managed investment schemes generally don't pay tax on behalf of investors and you will be assessed for tax on any income and capital gains arising from your investment in the Fund.

The Fund has elected into the AMIT regime. As an AMIT, the income attributed to you may be more than or less than the distributions you receive in respect of the financial year ending 30 June.

The tax consequences of investing in managed investment schemes are particular to your circumstances, so we strongly recommend you seek professional tax advice.

If you are investing indirectly through a Service, you should also refer to your Service operator for further information about the tax treatment of your investment in the Fund.

Tax file number (TFN)/Australian business number (ABN)

Providing your TFN isn't compulsory but without it or the appropriate exemption information we or your Service operator (as applicable) have to withhold tax from the income distributed/attributed to you at the highest marginal tax rate (plus Medicare levy) until your TFN or exemption is provided.

You may prefer to provide an ABN as an alternative to your TFN if your investment is made as part of an enterprise.

Direct investors

We are authorised under tax laws to collect TFNs and ABNs in connection with your investment in the Fund.

Indirect investors

Please refer to your Service operator for more information on the collection of TFNs and ABNs for investors investing in the Fund through their Service.

Further information

Further general information about how managed investment schemes are taxed is available in the separate 'Additional information' document titled 'Trillium – Additional information', which forms part of this PDS.

You should read the important information about tax before making a decision. Go to www.perpetual.com.au/trillium.

The material relating to tax may change between the time when you read this PDS and the day when the product is acquired.

8. How to apply

Investment applications

Direct investors

Please complete the application form, which is available at www.perpetual.com.au/trillium or by contacting us. The application form includes detailed investment instructions.

Indirect investors

You should complete any relevant forms provided by your Service operator and follow their procedures.

Your cooling-off rights

Direct investors

You have up to 14 days from the earlier of the time when you receive confirmation of issue of units in the Fund to you or the fifth business day after the units in the Fund are issued to you where you can have your investment repaid ('cooling-off period').

The amount repaid will be adjusted for any transaction costs and any increase or decrease in the value of your investment.

If you have authorised us to pay a member advice fee to your financial adviser on your behalf:

- we will reinstate the notional units previously deducted from your account and refund the amount to you only if we have not yet paid the fee to your financial adviser or
- you will be responsible for seeking a refund of any member advice fee from your financial adviser once it has been paid to your financial adviser.

Your right to be repaid during the cooling-off period does not apply if:

- you exercise any of your rights as an investor in the Fund
- you are a wholesale client (as that term is defined in the Corporations Act).

If you'd like to have your investment repaid, write to us stating that you want to be repaid during the cooling-off period (please include your account number). Your request must reach our Sydney office before the end of the cooling-off period.

When we receive your request, we will send you the details about your repayment.

Investments repaid may create a taxable gain or loss so we recommend that you seek professional tax advice.

Indirect investors

No cooling-off rights apply in respect of any investment in the Fund acquired by your Service operator on your behalf. For information about any cooling-off rights that may apply to you in respect of the Service that you invest through, please contact your Service operator directly or refer to their disclosure document.

Inquiries and complaints

Direct investors

We're committed to providing you with the highest level of service and we have established procedures for dealing with any inquiries and complaints relating to your investment in the Fund.

Inquiries

If you have an inquiry, you can either phone us on 1800 022 033 during business hours, email us at investments@perpetual.com.au or write to:

Client Services, Trillium Global Funds
GPO Box 4171, Sydney NSW 2001

Complaints

If you have a complaint about your investment in the Fund, you should take one of the following steps:

1. Contact one of our Client Services representatives on 1800 022 033 and tell them about your complaint.
2. Email your complaint to MyComplaint@perpetual.com.au.
3. Complete our online complaints submission form available at www.perpetual.com.au/privacy-policy/making-a-complaint.
4. Put your complaint in writing and mail it to:
Client Services – Complaints, Trillium Global Funds
GPO Box 4171, Sydney NSW 2001

We will endeavour to respond to your complaint fairly and as quickly as we can and by no later than the maximum response timeframe of 30 days. If we have not had a reasonable opportunity to respond to your complaint before the maximum response timeframe ends, we will write to you to let you know.

If, before the maximum response timeframe for your complaint has passed, you don't feel as though your concerns are being heard or have received our response and are not satisfied with the resolution that has been proposed, our Client Advocacy Team may be able to assist you. Please see www.perpetual.com.au/about/client-advocacy for information on how to get in touch with our Client Advocacy Team members.

If, at any time you are not satisfied with our response to your complaint, any aspect of our complaints handling process or if you have not received a response within the maximum response timeframe, the Australian Financial Complaints Authority (AFCA) might be able to assist you.

Australian Financial Complaints Authority

We are members of the AFCA external dispute resolution scheme.

AFCA has been established by the Commonwealth Government to deal with complaints from consumers and small businesses about financial services firms. AFCA service is free of charge to you.

Contact details for AFCA are as follows:

Phone	1800 931 678
Email	info@afca.org.au
Website	www.afca.org.au
Mail	Australian Financial Complaints Authority GPO Box 3, Melbourne VIC 3001

Indirect investors

You should direct any inquiries or complaints to your Service operator in the first instance. If your Service operator is unable to answer your query or resolve a complaint on your behalf, you can contact us directly.
