# 2017 RAMACIOTTI HEALTH INVESTMENT GRANT RECIPIENTS

Ramaciotti Health Investment Grants of up to \$150,000 have been awarded to four recipients undertaking biomedical research. The grants are awarded to autonomous early career scientists to support health or medical research with a potential path to clinical application within five years. As trustee of the Ramaciotti Foundations, Perpetual is pleased to congratulate all five recipients.

## HEALTH INVESTMENT GRANTS

RECIPIENT	DEPARTMENT	INSTITUTION	PROJECT
Dr Julie Brown	Neuroscience Research Australia (NeuRA)	University of NSW	Development of guidelines for use of comfort and orthopedic aids for older people travelling in cars
Dr Roisin McMahon	Griffith Institute for Drug Discovery	Griffith University	Overcoming the resistance: new antimicrobials that disarm, rather than destroy bacteria
Dr Freda Passam	Haematology Research	Heart Research Institute	Targeting protein disulfide isomerase for the prevention of thrombotic disease
Dr Natasha Rogers	Centre for Transplant and Renal Research	Westmead Institute for Medical Research	Normothermic Machine Perfusion To Improve Kidney Transplant Outcomes
Dr Makrina Totsika	Institute of Health and Biomedical Innovation, Faculty of Health	Queensland University of Technology	Novel antimicrobial therapies for multidrug resistant bacteria
