## ABOUT THE FUND

With around 98% of the world's investment opportunities located outside of Australia, the Perpetual International Share Fund enables investors to access companies that operate in differing regions and in industries under represented in Australia.

The Fund employs the same disciplined quality and value investment approach used across Perpetual's broader equities capability. Wherever it invests, the Fund seeks high quality companies with strong balance sheets, consistent earnings growth and strong free cash flow, that are offering the potential to deliver strong investment returns over the long term.

## HOW DOES THE FUND FIT INTO A WELL-BALANCED PORTFOLIO?

The Perpetual International Share Fund is a concentrated, actively managed portfolio of quality global shares that provides investors with the potential for capital growth and income.

Investing in global shares provides geographical and industry diversifications, which may improve a portfolio's risk and return potential.

For many investors with a traditional Australian bias, the Perpetual International Share Fund provides access to growth industries including technology, telecommunications and health care that are not well represented within Australia.
