- the investment manager responsible for the selection of the specialist underlying investment managers (PIML may also be a specialist underlying investment manager).

PSL and PIML are wholly owned subsidiaries of Perpetual Limited (ABN 86 000 431 827) and part of the Perpetual Group, which has been in operation for over 130 years.

The following information can be found on our website at www.perpetual.com.au/select-super or www.perpetual.com.au/select-pension from the time required by superannuation law:

SUPER PLAN

The Super Plan allows you to save for your retirement and protect your wealth along the way by:

- accepting all types of eligible superannuation contributions made by you or on your behalf
- offering death, disability and salary continuance insurance cover to eligible members.

PENSION PLAN

The Pension Plan pays you a regular income from your accumulated superannuation when you retire (or meet another condition of release under superannuation law).

2. HOW SUPER WORKS

Superannuation (super) is an effective way of saving for your retirement which is, in part, compulsory. Super is generally a long-term investment, which has the following characteristics:

- tax incentives are provided by the Government
- there are different types of contributions that can be made by you or on your behalf (eg personal contributions, employer contributions, spouse contributions and government co-contributions)
- super guarantee contributions generally have to be made for you by your employer if you are earning more than \$450 per month and most people have the right to choose into which superannuation entity their employer should direct these compulsory contributions
- there are work and/or age-based conditions for making contributions to super, as well as dollar limits, depending on the various types of contributions
- there are restrictions on when you can withdraw your super – generally once you reach age 65 or retire after reaching your preservation age (between ages 55 and 60, depending on your date of birth), although there are some other special circumstances (eg 'transition to retirement' pensions) where you can access it earlier
- you can generally withdraw your super as a lump sum and/or pension income (subject to a minimum annual pension amount)
- in the event of your death, your benefit will generally be paid to one or more of your dependants or to your legal personal representative.

FURTHER INFORMATION

Further information about how super and pensions work, including eligibility to invest and accessing your benefit, are contained in separate documents titled 'Your Super Plan account' and 'Your Pension Plan account', which form part of this PDS.

GENERAL FEATURES	BENEFIT
Underlying multi-manager investment approach	The assets of the investment options are managed by a range of underlying specialist investment managers chosen by PIML to combine their different styles, philosophies, approaches and techniques in selecting their portfolios, with the aim of enhancing diversification within each asset class and producing more consistent returns.
Switching	You can easily restructure your investment portfolio by switching between investment options.
Auto-rebalancing	You can automatically rebalance your investment portfolio regularly to maintain your investment strategy.
Online Account Access	You can switch between investment options and obtain easy access to information about your investment online.
SUPER PLAN FEATURES	BENEFIT
Investment choice	There are six multi-asset class and seven single-asset class investment options to choose from, allowing you to tailor an investment portfolio that meets your individual needs.
Contributions	The Super Plan can accept all types of contributions, as well as transfers or rollovers from other funds, so you can keep all of your super savings together. This will make it easier to manage your super and may save you money with ongoing fees and costs.
Minimum amounts	The minimum initial investment is \$3,000 (or \$1,500 if you are establishing a savings plan). There are no minimum amounts for additional investments, switches between investment options, withdrawals (subject to eligibility), investment option balances and your Super Plan account balance.
Maximum amounts	No more than 50% of any contribution can be allocated to the Geared Australian Share investment option. If you invest in this investment option, we'll automatically rebalance your investment portfolio to your investment strategy. This helps to manage the higher risk associated with gearing and lower asset diversity in the underlying fund.
Direct debit	You have the convenience of authorising us to debit your nominated account directly to make your initial and/or additional contributions.
Savings plan	You can make regular monthly or quarterly contributions by direct debit.
BPAY®	You can make additional contributions electronically from your cheque or savings account using the phone or online banking facilities provided by most Australian banks, building societies and credit unions.

PENSION PLAN FEATURES	BENEFIT
Type of pension	The Pension Plan is an account based pension, which provides flexible income (subject to a minimum annual payment amount set by the Government).
Investment choice	There are five multi-asset class and six single-asset class investment options to choose from, allowing you to tailor an investment portfolio that meets your individual needs.
Minimum amounts	There are no minimum amounts for investments, switches between investment options, lump-sum withdrawals, investment option balances and your Pension Plan account balance.
Pension refresh facility	You can commute and recommence your pension after adding other accrued superannuation benefits.

® Registered to BPAY Pty Ltd ABN 69 079 137 518.

4. RISKS OF SUPER

The amount of your future super savings (including contributions and returns) may not be enough to provide adequately for your retirement.

All investments carry risk. Each investment option may not necessarily be exposed to each of the risks and different investment options may carry different levels of risk, depending on their underlying assets. Assets with the highest long-term returns may also carry the highest level of short-term risk due to their generally larger fluctuations in returns.

The value of your investment may fall for a number of reasons, including the risks set out in the following table on page 4, which means that you may receive back less than your original investment when you withdraw. Before making an investment decision, it's important to understand the risks that can affect the value of your investment. While it's not possible to identify every risk relevant to investing in the Fund, we have detailed in the following table significant risks that may affect your investment.

The appropriate level of risk for each person will vary depending on a range of factors including age, investment timeframe, other investments and risk tolerance. Your financial adviser can assist you in determining which investment options are suited to your financial needs and the level of diversification you need.

Neither we nor any company in the Perpetual Group guarantee that you will earn any return on your investment or that your investment will gain in value or retain its value. The level of returns will vary, and future returns may differ from past returns. Investment in the Super Plan and Pension Plan is subject to investment risk, including possible delays in repayment and loss of income and capital invested.

TYPE OF RISK	DESCRIPTION OF RISK
Market and economic risk	Certain events may have a negative effect on the price of all types of investments within a particular market. These events may include changes in economic, social, technological or political conditions, as well as market sentiment.
Asset risk	A particular asset that a fund invests in may fall in value, which can result in a reduction in the value of your investment.
Interest rate risk	Changes in interest rates may have a negative impact, either directly or indirectly, on investment returns.
Currency risk	For investments in international assets, which have currency exposure, there is potential for adverse movements in exchange rates to reduce their Australian dollar value. For example, if the Australian dollar rises, the value of international investments expressed in Australian dollars can fall.
Credit risk	The issuer or party to a transaction may not repay the principal, make interest payments or fulfil other financial obligations in full and/or on time. The market value of an investment can also fall significantly when the perceived risk of a note or bond increases or its credit rating declines.
Counter-party risk	A loss may occur if the other party to a contract, including derivatives contracts or lending arrangements (cash or stocks), defaults on their obligations under the contract.
Legal and regulatory risk	Changes in legislation and differences between rules (including interpretation of the law) in domestic and foreign markets, including those dealing with superannuation, taxation, accounting and investments, may adversely impact your investment.
Investment strategy risks	A fund's investment strategy may involve specific risks. These include derivatives risk, liquidity risk, gearing risk, short-position risk, prime broker risk and portfolio concentration risk – see the separate incorporated documents noted under 'Further information' for details.
Other risks	Investing in a super fund that holds units in managed investment schemes may provide you with a different tax outcome than investing in a super fund which uses a different investment vehicle or holds investments directly. This is because of the application of specific tax laws to the managed investment schemes and the impact of investments into, and withdrawals from, the managed investment schemes by other investors.

FURTHER INFORMATION

Further information about the risks of investing and how these risks are managed is contained in separate documents titled 'Your Super Plan account' and 'Your Pension Plan account', which form part of this PDS.

You should read the important information about the risks of investing before making a decision. Go to www.perpetual.com.au/select-super-updates or www.perpetual.com.au/select-pension-updates.

The material relating to the risks of investing may change between the time when you read this PDS and the day when you acquire the product.

When choosing your investment option(s), you should consider the likely investment return, the risk and your investment timeframe. We recommend you consult a financial adviser for assistance in determining the most appropriate investment option(s) for you.

If you don't make a choice of where to invest, we will not be able to accept your contributions.

The following profile is provided for the Balanced investment option. Similar profiles for all of the investment options are provided in separate documents titled 'Your Super Plan account' and 'Your Pension Plan account', which form part of this PDS.

- 1 The risk level represents the Standard Risk Measure (SRM), which is based on industry guidance to allow members to compare investment options that are expected to deliver a similar number of negative annual returns over any 20 year period, as follows.

RISK BAND	RISK LABEL	ESTIMATED NUMBER OF NEGATIVE ANNUAL RETURNS OVER ANY 20 YEAR PERIOD
1	Very low	Less than 0.5
2	Low	0.5 to less than 1
3	Low to medium	1 to less than 2
4	Medium	2 to less than 3
5	Medium to high	3 to less than 4
6	High	4 to less than 6
7	Very high	6 or greater

The SRM is not a complete assessment of all forms of investment risk, for instance it does not detail what the size of the negative return could be or the potential for a positive return to be less than a member may require to meet their objectives. Further, it does not take into account the impact of administration fees and tax on the likelihood of a negative return.

Members should still ensure they are comfortable with the risks and potential losses associated with their chosen investment option/s.

The SRMs for the investment options may change over time for various reasons, including as a result of reviews of the underlying capital market assumptions that are used in their calculation and future changes to asset allocations. Any changes to SRMs at any time will be available at our website.

- 2 Fixed income includes both Australian and international assets. This exposure is gained through underlying investment into Perpetual Select Fixed Income Fund. The maximum exposure to international fixed income assets in that underlying fund is 30%. Currency exposure in the underlying fund is monitored and hedging strategies are employed (using derivatives) with the aim of reducing the impact of adverse currency movements. The underlying fund may also invest up to 10% in high yield assets (fixed income assets which have a higher risk profile but higher potential for return).
- 3 The currency exposure of international assets in the underlying funds is monitored and hedging strategies may be implemented (using derivatives) with the aim of reducing the impact of adverse currency movements.

FURTHER INFORMATION

Further information about how we invest your money, including profiles for all of the investment options available to members, is available in separate documents titled 'Your Super Plan account' and 'Your Pension Plan account', which form part of this PDS.

You should read the important information about how we invest your money before making a decision. Go to www.perpetual.com.au/select-super-updates or www.perpetual.com.au/select-pension-updates.

The material relating to how we invest your money may change between the time when you read this PDS and the day when you acquire the product.

You can switch some or all of your investment in an investment option into another investment option(s) at any time through Online Account Access or by sending us a completed switch form.

We may add, close and/or terminate investment options at any time. We will contact affected members before terminating any investment option to seek your alternative investment instructions and advise what will happen to your investment if you take no action.

We may also add, delete or replace specialist underlying investment managers at our discretion.

ENVIRONMENTAL, SOCIAL AND ETHICAL FACTORS AND LABOUR STANDARDS

Increasingly members of the investment management industry (including PIML) are developing policies regarding their methods for considering environmental, social (including labour standards) and governance (ESG) factors which may influence the purchase, sale or retention of an individual investment.

PIML considers these policies when choosing specialist underlying investment managers only to the extent that they may have an effect on an investment manager's style and investment performance. PIML will neither choose nor exclude a specialist underlying investment manager solely on their ESG policies/practices but it will contribute to PIML's overall assessment of a manager's style and capability.

Where PIML is the specialist underlying investment manager, they don't attempt to apply ethical standards, and they will only take ESG factors into account to the extent that they believe they may impact the current and potential future quality or value of an individual investment (either positively or negatively).

6. FEES AND COSTS

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You or your employer, as applicable, may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more or see the impact of fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a superannuation calculator to help you check out different fee options.

The following information can be used to compare costs between different superannuation products.

Unless otherwise stated, all fees and costs disclosed in this PDS are inclusive of the net effect of goods and services tax (GST).

Fees and costs can be deducted from your money, from the returns on your investment or from the Fund's assets as a whole.

1 Defined fees for superannuation products, which form part of this PDS, can be found on our website at www.perpetual.com.au/select-super-updates or www.perpetual.com.au/select-pension-updates.

2 The investment fee comprises:

- a base fee of 1.49% pa (on which the following rebates apply for large account balances)

Base fee rebates for the year ending 30 June 2017

VALUE OF INVESTMENT	REBATE (%)
First \$265,500	Nil
Next \$620,100	0.50%
Over \$885,600	1.15%

- varying investment management fees depending on the investment option's underlying assets.

3 The investment fees for the geared investment options are not directly comparable to the investment fees of the other investment options due to the levels of gearing in the underlying Perpetual Select Geared High Growth Fund and Perpetual Select Geared Australian Share Fund, which are on average 33% and 50% respectively. For the underlying funds of the geared investment options, investment fees are applied to their **gross asset value**. This results in higher amounts when these fees are expressed as a percentage of their **net asset value** (that is, asset value after deduction for borrowing in the underlying funds) as shown in the table.

4 The amount of the member fee may be increased from 1 July each year by the cumulative increase in the CPI since the last increase.

5 See 'Additional explanation of fees and costs'.

6 This is the **estimated** ratio of total indirect costs of each investment option to the average net assets of the investment option based on the financial year ended 30 June 2016, including net transaction costs borne by all members, which may vary in future years.

Apart from any indexation of the annual member fee, we won't increase our fees, or introduce new fees, without giving you at least 30-days' written notice. Actual investment fees (where estimated) and indirect cost ratios will vary from year to year without notice.

Estimated transaction costs, which are used to determine the buy/sell spreads, are reviewed regularly. Consequently, the above buy/sell spreads current as at the issue date of this PDS may also change (increase or decrease) during the life of this PDS. The latest transaction costs and current buy/sell spreads at any time are available at our website.

ADDITIONAL EXPLANATION OF FEES AND COSTS

INSURANCE FEE

If you elect to have insurance cover through the Super Plan (see '8. Insurance in your super' for details), this is the insurance premium charged by the insurer to cover the cost of insurance. Insurance premiums are deducted from your Super Plan account monthly in arrears and paid directly to the insurer.

PAYMENTS TO PERPETUAL GROUP FROM INSURANCE PREMIUMS

Insurance premiums may include, at no additional cost to you, an amount which is paid by the insurer to Perpetual Group for services and reimbursement for expenses incurred in relation to the insurance arrangements for the Fund.

FURTHER INFORMATION

Further information about fees and costs is available in a separate document titled 'Additional information about fees and costs', which forms part of this PDS. Transaction costs for the most recently completed financial year and current buy/sell spread details for the investment options and fee definitions, which also form part of this PDS, are publicly available at our website.

You should read the important additional information about fees and costs before making a decision. Go to www.perpetual.com.au/select-super-updates or www.perpetual.com.au/select-pension-updates.

The material relating to fees and costs may change between the time when you read this PDS and the day when you acquire the product.

7. HOW SUPER IS TAXED

The tax benefits derived from investing in super are particular to your circumstances, so we recommend you see a tax adviser. The following summary information is general only and shouldn't be relied on.

The Federal Government passed legislation in November 2016 that will make a number of changes to superannuation from 1 July 2017, which could significantly impact some Fund members. Further information about these changes is contained in separate documents titled 'Your Super Plan account' and 'Your Pension Plan account', which form part of this PDS.

CONTRIBUTIONS/ROLLOVERS

Concessional contributions, including employer contributions and personal contributions for which you claim a tax deduction (conditions apply), are generally subject to tax at 15% within the Fund.

Non-concessional (after-tax) contributions are not taxable within the Fund.

There are limits on the amounts of concessional and non-concessional contributions that can be made each year (see application forms for details). Excess contributions attract additional tax.

Generally, no tax is applied on amounts rolled over into the Fund, unless they have come from an untaxed source and contain a taxable component, in which case we are required to deduct tax of 15% on the taxable component amount.

INVESTMENT EARNINGS

The Fund's investment earnings relating to Super Plan members are generally taxed at a maximum rate of 15%.

Investment earnings, including realised net capital gains, derived within the Pension Plan are not subject to tax.

WITHDRAWALS

Withdrawals from your super may be taxed if you are aged less than 60. Once you turn age 60, generally no tax will apply to withdrawals, including income payments to Pension Plan members.

DEATH BENEFITS

Payment rules and the tax consequences depend on whether the death benefit is paid to a dependant or non-dependant.

Lump sum death benefit payments are tax-free if paid to a dependant.

TAX FILE NUMBER (TFN)

You should provide your TFN when joining the Fund. If you don't provide us with your TFN:

- we can't accept any non-concessional contributions or Government co-contributions for you
- we will be required to deduct additional tax from concessional contributions received during the year
- we must deduct income tax generally at the highest marginal tax rate (plus Medicare levy) from any lump sum benefits paid to you.

We'll provide your TFN to the trustee of another superannuation fund or retirement savings account provider receiving your transferred benefits in future, unless you ask us not to in writing.

For Super Plan members, we may also use your TFN to search for other superannuation accounts so that you may consider consolidating your benefits into your Super Plan account, unless you ask us not to in writing. We won't arrange for any amounts that we may find to be transferred to your Super Plan account without your specific instruction.

TFN DECLARATION FORM (PENSION PLAN ONLY)

If you are under age 60 you will need to complete a TFN declaration form and attach it to your application form. This declaration helps us to calculate how much tax to deduct from your pension payments. The amount of tax deducted may be reduced if you are entitled to the tax-free threshold. If you are required to complete a declaration and you don't, we must withhold tax at the highest marginal tax rate plus Medicare levy from any payment made to you.

FURTHER INFORMATION

Further information about tax relating to super and pension products, including changes applicable from 1 July 2017, is available in separate documents titled 'Your Super Plan account' and 'Your Pension Plan account', which form part of this PDS.

You should read the important information about tax before making a decision. Go to www.perpetual.com.au/select-super-updates or www.perpetual.com.au/select-pension-updates.

The material relating to tax may change between the time when you read this PDS and the day when you acquire the product.

8. INSURANCE IN YOUR SUPER

Insurance relates to Super Plan members only. It is not available to Pension Plan members.

The following information is a summary only of the standard insurance cover available to eligible Super Plan members.

GENERAL

The Super Plan generally offers members insurance cover for:

- death only or
- total and permanent disablement (TPD) only or
- death and TPD and
- salary continuance.

Subject to eligibility, all members can apply for insurance by completing the 'Insurance cover' section within the 'Super Plan application' form and, if required, the separate 'Insurance application' form available from our website or by contacting us.

You can request to change or cancel your cover at any time by writing to us at the address listed on the cover of this PDS.

PREMIUMS

There are costs associated with insurance cover. You can calculate your premiums with reference to the premium rates in the separate 'Insurance in your super' document.

Insurance premiums are deducted from your account monthly in arrears by withdrawal of units. You can either nominate the investment option(s) from which you would like the premiums deducted, or have the premiums deducted proportionately across your investment options. If no nomination is made, or the investment option is insufficient to cover the premiums, premiums will be deducted from your investment option with the highest account balance.

It is important that you ensure your investment balance is sufficient to cover your premiums each month or your insurance will lapse. The Trustee has no responsibility for ensuring continuity of your insurance cover and accepts no responsibility if it lapses.

CLAIMS

You or your representative must notify the Trustee in writing as soon as possible after you become aware of any claim or potential claim.

If you make an insurance claim, we and the insurer will determine whether you are entitled to be paid based on the terms of the policy, the Fund's Trust Deed and the law.

FURTHER INFORMATION

Full details about the insurance cover available to Super Plan members, including insurance premiums, are contained in a separate document titled 'Insurance in your super', which forms part of this PDS.

You should read the important information about insurance before making a decision. Go to www.perpetual.com.au/select-super-updates.

The material relating to insurance may change between the time when you read this PDS and the day when you acquire the product.

9. HOW TO OPEN AN ACCOUNT

SUPER PLAN

You should complete the 'Super Plan application' form, together with any other appropriate forms for features that you choose, and send to us with your cheque (if applicable – excluding employer contributions) at the address listed on the cover of this PDS.

All relevant member forms are included with this PDS.

PENSION PLAN

You should complete the 'Pension Plan application' form, together with any other appropriate forms for features that you choose, and send to us at the address listed on the cover of this PDS.

All relevant forms are contained in the separate document titled 'Your Pension Plan account', which is available at our website or by contacting us.

YOUR COOLING-OFF RIGHTS

As a member in the Fund, you have up to 14 days from the earlier of the time when you receive confirmation of the issue of your interest in the Fund or the fifth business day after the issue of your interest in the Fund where you can have your investment repaid ('cooling-off period').

The amount repaid will be adjusted for any transaction costs and any increase or decrease in the value of your investment.

Your right to be repaid during the cooling-off period does not apply if:

- you are switching between investment options
- you exercise any of your rights as a member of the Fund.

Any amounts that are 'preserved' or 'restricted non-preserved' (including pensions taken out under the 'transition to retirement' provisions) can't be refunded to you if you exercise your cooling-off rights unless you satisfy a 'condition of release' under superannuation law. You'll need to nominate another superannuation fund, retirement savings account or approved deposit fund to transfer the funds into. If you don't, we'll transfer the amount to the Fund's nominated eligible rollover fund.

If you'd like to have any 'unrestricted non-preserved' amount repaid, write to us stating that you want to be repaid during the cooling-off period (please include your account number). Your request must reach our Sydney office before the end of the cooling-off period.

When we receive your request, we will send you the details about your repayment.

INQUIRIES AND COMPLAINTS

We're committed to providing you with the highest level of service and the Trustee has established procedures for dealing with any inquiries and complaints. If you have an inquiry or complaint, you can either phone Perpetual on 1800 003 001 during business hours or write to:

Client Services
Perpetual Select Super Plan and Pension Plan
GPO Box 4171
Sydney NSW 2001

We'll endeavour to respond to your inquiry within 30 days and must respond to complaints within 90 days.

If you're not happy with the Trustee's decision that affects you, and your complaint has not been resolved to your satisfaction, you may have a right to lodge a complaint about the decision with the Superannuation Complaints Tribunal (SCT). The SCT is an independent body established by the Commonwealth Government to review certain types of trustee decisions. You can phone the SCT from anywhere in Australia on 1300 884 114.

I understand the greater risks associated with my selection of the Geared Australian and/or Geared High Growth investment option/s and that it has a suggested investment timeframe of seven years or more.

I acknowledge and accept that, if the value of my investment in the Geared Australian Share investment option has risen above or fallen below my nominated percentage allocation (or the default percentage allocation if I do not make a nomination) at my nominated review date (or the default frequency if I do not make a nomination) it will be automatically rebalanced to my nominated percentage allocation (or default percentage allocation) across my investments. I acknowledge that the buy/sell spread will apply to this rebalancing transaction.

Before you sign this application form, the Trustee or financial adviser is obliged to give you a PDS (which is a summary of important information relating to the Super Plan). The PDS will help you understand the product and decide if it is appropriate to your needs.

Important notice for beneficiary nominations

- For the Super Plan you are only able to make either a binding or non-binding nomination.
- For the purpose of paying a death benefit, a dependant is:
 - a person who is financially dependent upon you at the date of death or
 - a child, adopted child, step-child, ex-nuptial child or
 - a spouse (including a de facto spouse) or
 - a person with whom you have a close personal relationship and share a residence with and one or each of you provides the other with financial support, domestic support and personal care or
 - a person with whom you have a close personal relationship, but the other requirements detailed above aren't satisfied because either or both of you suffer from a physical, intellectual or psychiatric disability.

Binding nomination rules

- In order to be effective, a binding nomination must be signed by two witnesses who are at least 18 years old and who are not named in this nomination form. Also, in order to have effect, this form must be delivered to the Trustee.
- Only your dependants or legal personal representative are eligible to receive your death benefit. Eligibility of a nominated person is determined at the date of your death.
- A binding nomination is effective for three years after the day it was first signed, or last confirmed or amended by the member. If you wish to confirm your nomination for another three years, you may do so by providing a signed notice to that effect to the Trustee.
- Your binding nomination will also cease to have effect if you subsequently marry, remarry or divorce.
- If you wish to amend or revoke your binding nomination you may do so by providing a notice to that effect to the trustee witnessed in the same manner as your original nomination (by two persons over the age of 18 years who are not named in the nomination form). We will provide a form for this purpose upon request.
- If a dependant nominated to receive a benefit predeceases the member or if a person nominated is not a dependant or legal personal representative at the time of death, that person's benefit will be distributed equally amongst the surviving nominated dependants or current legal personal representative. If there are no surviving nominated dependants or nominated legal personal representative it will be paid in accordance with the Trustee's discretion.
- You must provide all details requested in this form. If you do not, the Trustee may need to contact you to obtain further information. In the absence of certain information, the rules governing binding nominations adopted by the trustee provide for the following:
 - If you fail to specify any proportion, the benefit will be distributed equally amongst those persons nominated who are eligible to receive a benefit. If you do nominate percentages in respect of all nominated persons but the sum of the percentages is other than 100%, the percentages will be adjusted proportionately.
 - If you specify a proportion in respect of some but not all of the nominated persons the residual amount will be distributed equally amongst those nominated persons in respect of whom no proportion is specified. In the event there is no residual amount, no benefit will be paid to those persons in respect of whom no proportion is specified.
