

# PERPETUAL WEALTHFOCUS SUPER PLAN

## PDS UPDATE 1 DECEMBER 2018

This document should be read in conjunction with Product Disclosure Statement issue number 11 dated 1 May 2017 for Perpetual WealthFocus Super Plan (PDS). This document:

- updates PDS Part 1 (Features Book) in relation to the disclosures detailed below
- replaces the PDS update dated 1 December 2017.

## FEES AND OTHER COSTS

The entire content on pages 12-13 of the Features Book is replaced with the following updated information.

### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You or your employer, as applicable, may be able to negotiate to pay lower fees. Ask us or your financial adviser.

### TO FIND OUT MORE

If you would like to find out more or see the impact of fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a superannuation calculator to help you check out different fee options.

This document shows fees and other costs that you may be charged. These fees and other costs may be deducted from your money, from the returns on your investment or from the assets of the superannuation entity as a whole.

Other fees, such as advice fees for personal advice and insurance fees, may also be charged, but these will depend on the nature of the advice or insurance chosen by you.

Tax information, including goods and services tax (GST), is set out on pages 27-29 of the Features Book. Unless otherwise stated, all fees and other costs disclosed in this PDS are inclusive of the net effect of GST.

Insurance fees and other costs relating to insurance are set out in the Insurance Book.

You should read all information about fees and costs because it's important to understand their impact on your investment.

## FEES AND OTHER COSTS

PERPETUAL WEALTHFOCUS SUPER PLAN		
TYPE OF FEE <sup>1</sup>	AMOUNT	HOW AND WHEN PAID
Investment fee <sup>2,3</sup>	Our investment fee is 1.05% – 2.62% pa depending on the investment option(s) you choose. The investment fee for each investment option is shown in the 'Annual investment fees and estimated indirect costs' table on pages 3-4.	Investment fees, which are expressed as a percentage of the value of an investment option, are calculated and accrued daily and generally paid to us monthly. They are deducted directly from an investment option's assets and reflected in the unit price of the investment option each day.
Administration fee	Nil.	Not applicable.
Buy/sell spread <sup>4</sup>	0.00% – 0.75%. Buy/sell spread amounts vary between investment options – refer to the separate incorporated document for details.	Estimated transaction costs are allocated when a member buys or sells units in an investment option by incorporating a buy/sell spread between the investment option's entry and exit unit prices, where appropriate.
Switching fee	Nil. <sup>5</sup>	Not applicable.
Exit fee	Nil. <sup>3,5</sup>	No exit (withdrawal) fee is currently charged.

1 These amounts are deducted directly from the investment option's assets and reflected in its unit price.

2 These amounts include our normal operating expenses of 0.03% per annum plus any abnormal operating expenses recovered from the investment options for the financial year ended 30 June 2018, which aren't necessarily incurred each year.

3 These amounts are additional to the investment fees we charge. They are incurred indirectly and reflected in the unit prices of the underlying funds.

4 These **estimated** amounts are based on performance-related fees charged in relevant underlying funds for the financial year ended 30 June 2018. **Past performance and these estimates are not indicative of future returns.** Performance-related fees payable in the future may vary depending on the underlying funds' actual investment returns.

5 These percentages are based on other indirect costs incurred for the financial year ended 30 June 2018, including estimated net transaction costs, estimated costs associated with investing in derivatives and estimated performance-related fees charged in downstream underlying funds.

6 Totals may vary slightly to the sum of the various components due to roundings.

7 This percentage is based on the underlying fund's management fee of 1.17% pa charged on its gross asset value plus the investment option's additional management fee of 0.78% pa charged on its net asset value. If the average gearing level in the underlying fund is 50%, the management fee will be 3.12% pa of the investment option's net asset value. If the average gearing level in the underlying fund over the year is higher than 50%, the management fee will be higher than 3.12% pa of the investment option's net asset value.

8 This percentage is based on the underlying fund's management fee of 0.99% pa on the sum of its long and short positions plus the investment option's additional management fee of 0.96% pa on its net asset value.

9 Investment fees for the Platinum investment options were reduced from 2.75% to 2.56% pa from 3 July 2017.

10 The investment fee for the BlackRock Balanced investment option was reduced from 1.85% to 1.75% pa from 31 August 2017.

11 The investment fee for the Perpetual Cash investment option was reduced from 1.05% to 0.57% pa from 31 August 2018.
