PERPETUAL SELECT FIXED INCOME FUND

February 2024

FUND FACTS

Investment objective: Income through investment in a diversified portfolio of fixed income.

Suggested length of investment: Five years or longer

INVESTMENT APPROACH

The Fund combines specialist investment managers with different investment styles and philosophies. This can help reduce the volatility of the Fund by avoiding over exposure to a particular specialist investment manager. Derivatives are currently used by the specialist investment managers to protect against most currency movements, although this can change at any time.

BENEFITS

Provides investors with the potential for regular income above cash returns, with lower volatility than other income strategies.

RISKS

All investments carry risk and different strategies may carry different levels of risk. The relevant product disclosure statement or offer document for a fund should be considered before deciding whether to acquire or hold units in that fund. Your financial adviser can assist you in determining whether a fund is suited to your financial needs.
