

Guide to your AMIT Member Annual (AMMA) statement

The Perpetual Credit Income Trust (the Trust) is an Attribution Managed Investment Trust (AMIT).

The AMMA statement provides a summary of the income attributed to you from the Trust.

If your AMMA statement is for a joint account, it includes 100% of all income relevant to the joint account.

You will need to split the income between the joint account holders in accordance with your records.

How to use this guide

This guide is designed to help you understand your AMMA Statement and to assist you in completing your 2022 Tax Return for Individuals (tax return) and Tax Return for Individuals (supplementary section).

Part A of your AMMA statement provides a summary of distributions paid. Part B applies to Australian resident individual taxpayers. If you are a non resident, or any other investor type, Part B will not be applicable to you. We recommend you consult your tax adviser on how to include the detailed information outlined in Part C in your tax return.

Completing your tax return

The information in this guide is not tax advice and is not a complete guide to completing your tax return. It only relates to your investment in the Trust. You should refer to the Individual tax return instructions 2022 (the instruction booklet) which is available from the Australian Taxation Office (ATO) – download it from the ATO website <https://www.ato.gov.au/uploadedFiles/Content/IND/downloads/Individual-tax-return-instructions-2022.pdf> or call 1300 720 092 and the online instructions for the supplementary section <https://www.ato.gov.au/Individuals/Tax-return/2022/Supplementary-tax-return/>. Additional information is included in the online tax return instructions <https://www.ato.gov.au/Individuals/Tax-return/2022/Tax-return/>

About part A – distributions paid

Part A provides a summary of the distributions paid and any tax that has been withheld.

About Part B – tax return items

The following guidelines will help you to complete the supplementary section. They do not apply to part year residents, corporates, superannuation entities or trust investors.

There are three items you may need to complete in the supplementary section using information shown on your AMMA statement. The ATO's instructions are included online in the supplementary tax return section.

- Item 13 Partnerships and trusts
- Item 18 Capital gains
- Item 20 Foreign source income and foreign assets or property

Part B provides a summary of the income attributed to you from the Trust that needs to be included in your tax return. Record all amounts from Part B in the corresponding tax return label in your supplementary section (whole dollars only).

For example, 'Non-Primary Production income' on your AMMA statement has a tax return reference of 13U and should be entered in Item 13 Partnerships and trusts at Label U 'Share of net income from trusts, less capital gains, foreign income and franked distributions'.

If you have received any distributions or income has been attributed to you from other sources, you will need to add all relevant amounts together to complete your supplementary section.

Franking credits

Since the Trust is an AMIT, subject to the ATO determining otherwise, members are deemed to be a 'qualified person' in respect of the franked distribution component and do not need to apply the 45 day rule. Accordingly, you are entitled to claim all of the franking credits shown in Part B.

Capital gains

If Part B shows an amount of 'Total current year capital gains', you will need to print 'X' in the 'Yes' box at Label G of Item 18.

The 'Capital gains' section in Part C provides additional information about the capital gain components distributed to you. This information will assist if you are required to complete the ATO's capital gains tax (CGT) schedule or if you have any current year capital losses or net capital losses from prior years that you can offset against any capital gains you have received.

Your AMMA statement does not include any capital gains or losses from your disposal of units in the Trust. You will need to calculate the gain or loss from your investment records and include it in the calculation of your net capital gain.

You may wish to obtain a copy of the ATO publication 'Personal investors guide to capital gains tax 2022', download it from the ATO website <https://www.ato.gov.au/uploadedFiles/Content/IND/Downloads/Personal-investors-guide-to-capital-gains-tax-2022.pdf> or call 1300 720 092. The more comprehensive 'Guide to capital gains tax 2022' is also available from the ATO website <https://www.ato.gov.au/Individuals/Tax-return/2022/In-detail/Publications/Guide-to-capital-gains-tax-2022/>

About part C – component information

Part C provides a detailed breakdown of the income attributed to you for the financial year.

There are four columns relevant for each component listed in Part C:

- ‘Cash/Distribution’ is the dollar amount distributed.
- ‘Franking credits/tax offsets’ is the tax that has already been paid on this amount.
- ‘Attributed amount in excess of distribution’ is the income that has been accumulated in the Trust but attributed to you for tax purposes. It will give rise to a cost base adjustment for capital gains tax purposes.
- ‘Attributed amount’ is the sum of the previous columns and is assessable for tax purposes.

Australian income

The ‘Australian income’ section includes a breakdown of the Part B ‘Non-primary production income’.

The components under ‘Australian income’ included in non primary production income are interest, unfranked dividends (including conduit foreign income) and other Australian income (excluding capital gains).

The ‘Attributed amount’ sub total is equal to the Part B ‘Non-primary production income’.

The components under ‘Australian income’ included in franked distributions from trusts are franked dividends and franking credits.

The ‘Attributed amount’ sub total is equal to the Part B ‘Franked distributions from trusts’.

Capital gains

All capital gains relate to investments that are not taxable Australian property (NTAP). This distinction is irrelevant for most Australian resident investors.

The capital gain components are:

- **Discounted capital gains** – gains made on the disposal of investments that have been held for at least 12 months. The gain has been reduced by 50% as a result of the CGT concession.
- **Capital gains – other** – gains made on the disposal of investments within 12 months of acquisition. No adjustment is available for the 50% discount.
- **CGT gross up/concession amount** – the 50% discount equal to any discount capital gains.
- **Total current year capital gain** – the total of all capital gain components, including the CGT gross up/concession. This is equal to the item 18H Part B amount.
- **Net capital gain** – the ‘Total current year capital gain’ excluding any ‘CGT gross up/concession’ amount. This is equal to the item 18A Part B amount.

Foreign income

The ‘Foreign income’ section includes all assessable income that relates to interest and other income from investments held outside of Australia.

The ‘Attributed amount’ sub total is equal to the Part B ‘Assessable foreign source income’.

Non-attributable / tax deferred amounts – includes distribution components that are not assessable on receipt but may give rise to a cost base adjustment for capital gains tax purposes.

Gross cash distribution – the sum of all distributions paid on units held in the Trust.

Attributed amount in excess of distributions – income accumulated in the Trust that has been attributed to you for tax purposes.

Amounts deducted

- **TFN amount withheld** – tax that has been deducted from the income distributed / attributed to you if you have not provided your tax file number or Australian business number (ABN).

- **Foreign taxes withheld** – tax that has been deducted from the income attributed to you if you are not a resident of Australia for tax purposes.

Net cash distribution – the sum of all distributions you received from the Trust in cash or reinvested in the Trust after any applicable tax has been withheld.

2022 Tax return for individuals – net financial investment loss

If you have claimed a deduction in relation to your investment in the Trust, you will also need to complete question IT5 in your Tax Return. See pages 60-61 of the instruction booklet or <https://www.ato.gov.au/Individuals/Tax-return/2022/Tax-return/Income-test-questions-IT1-IT8/IT5-Net-financial-investment-loss-2022/> for the ATO’s instructions for this question. Item IT5 ‘Net Financial Investment Loss’ is not used to calculate your taxable income. It may however be used by the ATO to assess your tax offset entitlement, Medicare levy surcharge and other Government entitlements.

AMIT cost base adjustment

The net increase (shortfall) amount will increase the cost base of your units when determining any capital gain or loss on the disposal of your units if income has been accumulated in the Trust and attributed to you. The net decrease (excess) amount will reduce the cost base of your units when determining any capital gain or loss on the disposal of your units.

Obtain your own tax advice

We recommend you seek professional assistance when completing your tax return. If you have questions about your tax return please consult your tax adviser or the ATO. Perpetual is not able to provide you with tax advice.
